Texas Gas Service Energy Efficiency Program

Proposed Program Offering

Texas Gas Service has had an energy efficiency program serving 230,000+ customers in the Central Texas Service Area for over 20 years.

Throughout this time we have provided education about smart and efficient use of natural gas while incentivizing customers to join the effort to conserve energy resources.

The Rio Grande Valley program is currently in its 4th year and we have received a very positive response from the customers, builders and community groups which we serve. We are on track to exhaust the program budget by the close of the year.

This proposal is a result of conversations held with members of city leadership and demonstrates our desire to partner together to decrease energy usage and improve sustainability in El Paso.
