Proclamation

Small Business Saturday November 26, 2022

WHEREAS, the City Council of The City of Socorro, Texas celebrates our local small businesses and the contributions they make to our local economy and community; according to the United States Small Business Administration, there are currently 33.2 million small businesses in the United States, they represent 99.9 percent of American employer firms, create more than two-thirds of the net new jobs and generate 46 percent of private gross domestic product, as well as 54 percent of all US sales; and

WHEREAS, small businesses employ over 46.4 percent of the working population in the United States; and

WHEREAS, 93 percent of consumers in the United States agree that small businesses contribute positively to the local community by supplying jobs and generating tax revenue; and

WHEREAS, 87 percent of consumers in the United States agree that small businesses are critical to the overall economic health of the united States; and

WHEREAS, 93 percent of consumers in the United States agree that it is important for people to support the small businesses that they value in their community; and

WHEREAS, The City of Socorro, Texas supports our local businesses that create jobs, boost our local economy, and preserve our neighborhoods; and

WHEREAS, advocacy groups as well as public and private organizations across the country have endorsed the Saturday after Thanksgiving as “Small Business Saturday”.

NOW THEREFORE, I, Ivy Avalos, MAYOR OF THE CITY OF SOCORRO, TEXAS, do hereby, proclaim November 26th, 2022, as SMALL BUSINESS SATURDAY, and I urge the residents of our community, and communities across the country, to support small businesses and merchants on Small Business Saturday and throughout the year.

Small Business Saturday

IN WITNESS OF WHICH, I have set my hand and caused the Official Seal of the City of Socorro to be affixed hereto this 3rd day of November, 2022.

District 4

Adriana Rodarte
City Manager

October 26, 2022

TO: MAYOR AND CITY COUNCIL MEMBERS

FROM: Charles Casiano, Finance Director

SUBJECT: Discussion and action on approving September 2022 unaudited financial report.

SUMMARY

This action approves the unaudited financial reports through September 2022.

STATEMENT OF THE ISSUE

Section 3.12 (E) of the City of Socorro's Charter states

The City Council shall, at the end of each month, prepare or have prepared under its direction, a statement as to financial receipts and disbursements for that particular month, and shall have such statement no later than the 25th day of the following month and shall have a copy of said statement available in the office of the City Secretary for examination and a copy will be made, at a reasonable charge, for those who request one.

DATE: November 3, 2022

TO: Mayor & Council

FROM: Carlos Gallinar, Planning & Zoning Department

SUBJECT: INTRODUCTION, FIRST READING, AND CALLING FOR A PUBLIC HEARING OF AN ORDINANCE TO AMEND CHAPTER 46 ZONING, ARTICLE V. SUPPLEMENTAL REGULATIONS FOR ALL DISTRICTS, SECTION 46-634. SIGNS. BY MODIFYING SUBSECTION 24.

SUMMARY

Ordinance would create new sign standards for Mixed Use Zoning districts. Currently the City does not have sign regulations for these areas.

BACKGROUND

Over the past several years, the City Council created a Mixed-Use Zoning District (IC-MUD) and recently reviewed a new Mixed-Use District (GMU). These zoning district do not have distinct sign regulations that are specific to these areas. This Ordinance creates regulations that help support the development of these Mixed-Use Districts.

STATEMENT OF THE ISSUE

Planning and Zoning staff is beginning to receive inquires for commercial development along the Socorro Logistics Center area; which is an IC-MUD. As staff begins the plan review for these projects, we need to have sign regulations in place that create a uniform design for the area.

ORDINANCE_____

AN ORDINANCE TO AMEND CHAPTER 46 ZONING, ARTICLE V. SUPPLEMENTAL REGULATIONS FOR ALL DISTRICTS, SECTION 46-634. SIGNS. BY MODIFYING SUBSECTION 24.

WHEREAS the City of Socorro desires to and believes it is in the best interest of the City to amend Chapter 46. Zoning, Article V. Supplemental Regulations for All Districts, for the safety, general welfare, and health of the residents within the City of Socorro, Texas.

NOW THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF SOCORRO, TEXAS:

~~(24)Any sign or advertisement structure lawfully existing on the effective date of the ordinance from which this chapter is derived but which does not conform to this chapter may be required to be removed by the city. The city council may, after notice to the owner or occupant of the premises on which the sign is located, declare that such sign or advertising structure be removed in the public interest. The city clerk shall then contact two sign companies in the area for a written appraisal of the value of the sign or advertising structure and payment by the higher appraised value to the owner thereof or to the occupant of the premises on which the sign or advertising structure is located.~~

(24). In Mixed Use Districts (IC-MUD, GMU), no sign intended to be read from off the premises shall be permitted, except there may be:

a. One monument sign per lot and per dedicated street frontage.
b. Size: 80 square feet maximum (support structure is not part of sign square feet).
c. Height: 15 feet maximum to include the support structure.
d. Locations: Not closer than 5 feet from property line or within sight triangle.
e. Wall Signs: One wall sign per dedicated street per occupant with a 50 square feet maximum and may not project more than 18 inches beyond the face of building or project beyond corner of building.
f. Wall Signs shall not interfere with building fenestration or architectural integrity of building.
g. Illumination: No blinking or flashing lights are permitted for any sign. Neither direct nor reflected light from any light source shall create a traffic hazard or distraction to motorists.
h. Poles signs shall not be permitted.

~~(24).~~ (25). Any sign or advertisement structure lawfully existing on the effective date of the ordinance from which this chapter is derived but which does not conform to this chapter may be required to be removed by the city. The city council may, after notice to the owner or occupant of the premises on which the sign is located, declare that such sign or advertising structure be removed in the public interest. The city clerk shall then contact two sign

companies in the area for a written appraisal of the value of the sign or advertising structure and payment by the higher appraised value to the owner thereof or to the occupant of the premises on which the sign or advertising structure is located.

Section 2. Except as expressly herein amended, Chapter 46 (Zoning) of the Code of Ordinances of the City of Socorro, Texas, shall remain in full force and effect.

Section 3. Savings/Repealing Clause.

This Ordinance shall be cumulative of all other Ordinances and shall not repeal any of the provisions of such Ordinances except for those instances where there are direct conflicts with the provisions of this Ordinance. Ordinances or parts thereof in force at the time this Ordinance shall take effect and that are inconsistent with this Ordinance are hereby repealed to the extent that they are inconsistent with this Ordinance. Provided however, that any complaint, action, claim or lawsuit which has been initiated or has arisen under or pursuant to such Ordinance on the date of adoption of this Ordinance shall continue to be governed by the provisions of that Ordinance and for that purpose the Ordinance shall remain in full force and effect.

Section 4. Severability Clause.

Should any section, subsection, sentence, clause or phrase of this Ordinance be declared unconstitutional or invalid by a court of competent jurisdiction, it is expressly provided that any and all remaining portions of this Ordinance shall remain in full force and effect. The City of Socorro hereby declares that it would have passed this Ordinance, and each section, subsection, sentence, clause or phrase thereof irrespective of the fact that any one or more sections, subsections, sentences clauses and phrases be declared unconstitutional or invalid.

Section 5. Publication/Effective Date.

This ordinance shall take effect immediately from and after is passage and publication of the caption, as required by law.

SUBJECT: PUBLIC HEARING AND SECOND READING AND ADOPTION OF AN ORDINANCE TO AMEND CHAPTER 46 ZONING, ARTICLE IV. DISTRICT REGULATIONS BY ADDING DIVISION 16. GENERAL MIXED USE DISTRICT. WHEN REQUIRED, OF THE CITY OF SOCORRO MUNICIPAL CODE.

SUMMARY

Ordinance creates a new zoning district to the City of Socorro's Zoning Code (Chapter 46) to allow for flexibility in zoning regulations and development standards.

BACKGROUND

City Council directed staff to create a new zoning district that would allow for a mix of uses and zoning standards.

STATEMENT OF THE ISSUE

Currently, the City does not have a zoning district that provides flexibility in land uses, setbacks, and other standards. This would create a Zoning District that provides flexibility but also creates walkable, sustainable, and well-designed communities.

FINANCIAL IMPACT

ORDINANCE_____

AN ORDINANCE TO AMEND CHAPTER 46 ZONING, ARTICLE IV. DISTRICT REGULATIONS BY ADDING DIVISION 16. GENERAL MIXED USE DISTRICT.

WHEREAS the City of Socorro desires to and believes it is in the best interest of the City to amend Chapter 46. Zoning, Article IV. District Regulations for the safety, general welfare, and health of the residents within the City of Socorro, Texas.

NOW THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF SOCORRO, TEXAS:

Sec. 46-620. Purpose.

The General Mixed Use (GMU) District is intended to provide for greater flexibility and discretion in the more integrated development of residential, neighborhood commercial, and institutional uses and combinations of such uses. The GMU district is intended to provide for a more unified plan for land parcels and provide flexibility to enhance and preserve the City's historic and rural characters.

Sec. 46-621. General Design Principles

1. General Design Principles. These design principles shall serve as guidelines and compliance with any guideline within a mixed-use development shall be determined on a case-by-case basis as part of the master zoning plan approval. A GMU development shall meet one or more of these Design Principles.

a. That the development strategy encourages infill and redevelopment within existing neighborhoods.

b. That a mixture of housing types and densities be distributed throughout the GMU development.

c. That natural open space and agricultural lands be preserved as part of the development.

d. That ordinary activity of daily living occurs within walking distance of most dwellings.

e. That civic, institutional and commercial activity be embedded, and not isolated, in the development.

f. That open spaces including parks, squares, and playgrounds be included within the development.

g. That buildings and landscaping contribute to the physical definition of the development.

h. That architecture and landscape design grow from local climate, topography, and local history.

i. That the preservation and renewal of historic buildings be facilitated.

2. General Design Elements. A GMU is characterized by any combination of the design elements described below. These design elements shall serve as guidelines and compliance with any design element within a mixed-use development shall be determined on a case-by-case basis as

part of the master zoning plan approval. A GMU development shall meet one or more of these Design Principles.

a. A mixture of housing types, jobs, shopping, services, and public facilities shall be incorporated into the development.

b. Residences, shops, workplaces, and other buildings interwoven within the development, all within close proximity.

c. Natural features and undisturbed areas that are incorporated into the open space of the development.

d. Well-configured squares, plazas, greens, landscaped streets, preserves, greenbelts, or parks dedicated to the collective social activity, recreation, and visual enjoyment of the neighborhood.

h. Buildings, spaces, and other features that act as landmarks, symbols, and focal points for community identity.

i. Parking, parking lots, and vehicular access shall be subordinate to the design and shall not be the focal point of any development.

j. Compatibility of buildings and other improvements as determined by their arrangement, bulk, form, character and landscaping to establish a livable and harmonious environment.

k. Human-scale design of buildings, streets, corridors, and other public spaces is incorporated within the development.

Sec. 46-622. General regulations.

(a). *Area requirements.* Defined by Master Zoning Plan.

(b). *Setbacks.* Properties within GMU development shall be defined by the Master Zoning Plan, unless otherwise required by the city council as part of the review of the Master Zoning Plan.

(c). *Permitted uses.* Uses permitted in a GMU development are as approved by city council through a Master Zoning Plan. A GMU may be authorized to encourage use schemes such as but not limited to, residential, neighborhood commercial, office, civic, and institutional uses. In no instance shall a mixed-use development contain only one type of land use. City council can include uses not listed below as part of the Master Zoning Plan.

(1). Single-family residential.

(2). Multifamily dwellings, including, duplexes, triplexes, quadplexes, townhouses, row houses, and other dwellings with a maximum density of 15 dwelling units per acre.

(3). Accessory structures and uses including garages, carports, private workshop, greenhouses, and other structures that are customarily incidental to the principled structures.

(4). Public park, playground, or ball field.

(5). Swimming pool. Permitted only when a protective fence, minimum five feet in height, is provided around the yard, lot or pool area.

(6). Churches, clinics, schools, and religious and philanthropic institutions.

(7). Food establishments including restaurants, cafes, coffee shops, bodegas, and food trucks.

(8). Specialty shops (antiques, art objects and supplies, books, cameras and photo supplies, candy, gift, greeting cards, framing, coins, stationary, tobacco, and pharmacies).

(9). Personal service shops (interior decorating, watch and jewelry repair, art gallery, museum, photography, dance or fine art).

(10). Veterinary clinics of up to 3,000 square feet floor space excluding overnight boarding of animals.

(11). Public building, fire stations, government offices and public libraries.

(12). Any other neighborhood office, retail, service, or commercial use occupying no more than 3,000 square feet.

(d). *Height requirements.* Maximum heights of any building or structure shall be 35 feet.

(e). Off-street parking requirements shall be as determined by the Master Zoning Plan. No loading or unloading is to be conducted on public rights-of-way.

(f). *Signs.* Sign shall be as determined by the Master Zoning Plan.

(g). *Compatibility.*

(1). The GMU does not contemplate or authorize salvage yards, recycling businesses, vehicle storage facilities, auto-oriented businesses, regional commercial, large scale manufacturing, warehousing or industrial uses.

(2). No GMU shall be approved by the city council until it has been determined that the planned uses are compatible with the area that it will affect.

Sec. 46-623. Procedures.

Master Zoning Plan (MZP).

(a). As part of any zoning application for a GMU, a Master Zoning Plan shall be required and shall accompany the rezoning application. The MZP shall provide sufficient details necessary about the proposed land uses and proposed development so that the Socorro City Council may determine their compatibility within the proposed district and the impact on the adjacent properties.

(b). The Master Zoning Plan shall include the following information:

(1). Legal description of area proposed to be developed or metes and bounds description;

(2). Total acreage as depicted on a survey;

(3). Building footprints and layout of each proposed land use, labeled and color coded as per the city's zoning map;

(4). Maximum proposed total number of dwelling units for all residential land uses combined;

(5). Maximum proposed total floor area for all nonresidential land uses combined, expressed in square feet.

(6). Abutting sites and all public and private rights-of-way and easements.

(7). Height of all structures.

(8). Proposed minimum area regulations including setbacks, lot sizes, depth, side yards, square footage of all structures.

(9). The location of all off-street parking and loading facilities and location of lighting for the same, numbered and labeled.

(10). The location and detail of all walls, fences, screening and landscaping, including existing and proposed tree lines. Shipping containers shall not be permissible as walls, fences, screening.

(11). The location of all streams, ponds, drainage ditches, steep slopes, boundaries of floodway and floodplains and other supporting facilities that have been provided.

(12). The location of all dumpsters.
(11). The location of all fire hydrants.
(13). The location of stormwater facilities.
(14). The location of all streets, private roads, alleys, and sidewalks, including proposed surface materials.
(15). The location of underground utility lines, including water, sewer, electric power, telephone, gas and cable television.
(16). The location of all signs and sign design by type and size.
(17). A table or list depicting the proposed land use type, park, open space, trail and school site (as applicable).

(c). A written report shall accompany the MZP that describes the purpose, characteristics, components and timing of the proposed mix of land uses within the development, and includes a general statement of how the development relates to the General Design Principles. A detailed description shall be required for each proposed land use, identifying the permissible uses.

(d). A development schedule indicating the approximate date of when construction begins and the rate of anticipated development to completion shall accompany the application.

(e). The procedure for hearing a request for a zoning change to IC-MUD shall be the same as for a requested change in any other district.

(f). Any revision to a Master Zoning Plan between the public hearing before the planning and zoning commission and the public hearing before the city council, shall necessitate the MZP being referred back to the planning and zoning commission for review and evaluation unless the revision is a minor change in accordance with the list in subsection (g) of this section or the city council orders otherwise.

(g). Minor changes in the development may be authorized by the city planner when such minor changes will not cause any of the following circumstances to occur:

(1). A change in the overall character of the development.
(2). An increase in the ratio of the gross floor area in structures to the area of any lot.
(3). An increase in the intensity of use.
(4). A reduction in the originally approved separations between buildings.
(5). Any adverse changes in traffic circulation, safety, drainage and utilities.
(6). Any adverse changes in such external effects on adjacent property as noise, heat, light, glare, vibration, height or proximity.
(7). A reduction in the originally approved setbacks from property lines.
(8). An increase in ground coverage by structures.
(9). A reduction in the ratio of off-street parking and loading space.
(10). A change in the subject, size, lighting, or orientation of originally approved signs.

(h). Any change deemed not to be a minor change, as indicated in subsection (g) of this section, shall be processed as new application in accordance with the provision of this section.

(i). Provision for public, private, and common open space shall be evaluated with regard to density, site coverage and physical characteristics. This shall be required in the MZP.

(j). A traffic impact analysis may be required.

(k). An MZP shall expire two years from the date of final city council approval unless any part of the mixed use development has already obtained a certificate of occupancy for the use of the property as described in the plan.

(l). General Mixed Used Development zoning shall be revoked if:

(1). Approval of the development was obtained by fraud or deception; or

(2). One or more of the conditions set by the city council has not been met or has been violated.

Sec. 46-624. City Planner.
The city planner shall have the authority to waive or modify the requirements of this division when in the interest of the city.

Section 2. Except as expressly herein amended, Chapter 46 (Zoning) of the Code of Ordinances of the City of Socorro, Texas, shall remain in full force and effect.

Section 3. Savings/Repealing Clause.

This Ordinance shall be cumulative of all other Ordinances and shall not repeal any of the provisions of such Ordinances except for those instances where there are direct conflicts with the provisions of this Ordinance. Ordinances or parts thereof in force at the time this Ordinance shall take effect and that are inconsistent with this Ordinance are hereby repealed to the extent that they are inconsistent with this Ordinance. Provided however, that any complaint, action, claim or lawsuit which has been initiated or has arisen under or pursuant to such Ordinance on the date of adoption of this Ordinance shall continue to be governed by the provisions of that Ordinance and for that purpose the Ordinance shall remain in full force and effect.

Section 4. Severability Clause.

Should any section, subsection, sentence, clause or phrase of this Ordinance be declared unconstitutional or invalid by a court of competent jurisdiction, it is expressly provided that any and all remaining portions of this Ordinance shall remain in full force and effect. The City of Socorro hereby declares that it would have passed this Ordinance, and each section, subsection, sentence, clause or phrase thereof irrespective of the fact that any one or more sections, subsections, sentences clauses and phrases be declared unconstitutional or invalid.

Section 5. Publication/Effective Date.

This ordinance shall take effect immediately from and after is passage and publication of the caption, as required by law.

SUBJECT: PUBLIC HEARING AND SECOND READING AND ADOPTION OF AN ORDINANCE TO AMEND CHAPTER 38 SUBDIVISIONS, ARTICLE I. GENERAL, SECTION 38-20 DEDICATION OF LAND FOR PUBLIC USE, BY DELETING THIS SECTION IN ITS ENTIRETY AND ADDING A NEW SECTION 38-20 PARKLAND DEDICATION.

SUMMARY

The City's current parkland dedication ordinance does not provide enough standards or direction for how to allocate parks in new subdivisions. This ordinance provides more robust standards that will result in greater number of parks with higher quality design that will improve the quality of life for residents of Socorro.

BACKGROUND

City Council directed staff to create a new parkland dedication ordinance.

STATEMENT OF THE ISSUE

Currently, the City's parkland dedication ordinance is ambigious with no standards for location, design, size, or quality. This ordinance provides greater direction for developers to ensure that more parks are constructed as part of the subdivision process.

ORDINANCE_____

AN ORDINANCE TO AMEND CHAPTER 38 SUBDIVISIONS, ARTICLE I. GENERAL, SECTION 38-20 DEDICATION OF LAND FOR PUBLIC USE, BY DELETING THIS SECTION IN ITS ENTIRETY AND ADDING A NEW SECTION 38-20 PARKLAND DEDICATION.

WHEREAS the City of Socorro desires to and believes it is in the best interest of the City to amend Chapter 38 Subdivisions, Article I. General, Section 38-20 Dedication of Land for Public Use and adding a new Section 38-20 Parkland Dedication, to provide for the safety, general welfare, and health of the residents within the City of Socorro, Texas.

NOW THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF SOCORRO, TEXAS:

~~**Sec. 38-20. Dedication of land for public use.**~~

~~The subdivider shall transfer to the city 2.5 percent of the total land to be subdivided or an equivalent dollar value which shall be used by the city for parks and recreation or other city use. The option of receiving the money or land shall rest with the city. Land dedicated for public use does not necessarily need to be within the proposed subdivision development. The subdivider will only be assessed 75 percent of the total land requirements if the subdivider so chooses to participate in regional park improvements, on behalf of the city.~~

~~(Ord. No. 480, 10-3-2019)~~

38-20 PARKLAND DEDICATION

38-20.1 Policy plan and purpose.

A. Purpose. This chapter is adopted to provide recreational areas as a function of subdivision development in the City of Socorro. This article is enacted in accordance with the home rule powers of the City of Socorro granted under the Texas Constitution, and the statutes of the State of Texas, including, but not by way of limitation, V.T.C.A. Local Government Code, Chapter 212. It is declared by the city council that recreation areas in the form of neighborhood parks, community parks that serve several neighborhoods, linear parks, trails, and open space areas are necessary and in the public welfare, and that the only adequate procedure to provide for same is by integrating such a requirement into the procedure for planning and developing property or subdivisions in the city, whether such development consists of new construction on vacant land or the addition of new construction or redevelopment on existing developed lands.

B. Neighborhood parks, community parks, linear parks, trails and open space areas referred to in this chapter are those parks providing for a variety of outdoor recreational opportunities and within convenient distances from the majority of the residences to be served thereby. The primary cost of those parks should be borne by

the ultimate property owners who, by reason of their proximity to such parks, shall be the primary beneficiaries of such facilities.

C. The requirements for parkland are based in part on the standards, needs and objectives set forth in the Socorro Parks Master Plan, routinely amended and adopted by the city council, a copy of which shall be retained in the office of the city planner and which shall be incorporated by reference herein for all purposes.

Therefore, the following requirements are adopted to effect the purposes stated above and shall apply to any development within the City of Socorro, except as noted therein.

38-20.2 Dedication required.

A. Dedication Required. All subdivisions located within the corporate limits of the City of Socorro and within those areas designated in the city's extra territorial jurisdiction (ETJ), as identified on an official map kept in the office of the city planner.

1. The land conveyed and deeded to the city shall not be subject to reservations of record, encumbrances or easements which will interfere with the use of the land for park purposes.

2. Where a subsurface interest is severed from the surface estate, retention of the subsurface interest may not be considered an encumbrance for the purposes of this chapter.

B. In Residential Subdivisions. A residential subdivision shall provide for the parkland needs of the community.

1. For purposes of this chapter, a residential subdivision shall include any subdivision application submitted on property where the zoning allows for single-family, two-family or multifamily development (apartments).

2. This provision may be waived by the city manager or designee where the city is provided a copy of deed restrictions or other legal instrument verifying that the property within the subdivision application or portion thereof, is restricted to nonresidential uses as defined in this chapter. The evidence shall be provided to the city manager or designee with the filing of the preliminary plat, and shall be reviewed by the city attorney prior to the planning and zoning commission action on the preliminary plat. Failure of the subdivider to provide this information with the filing of the preliminary plat shall result in the subdivision application being considered as a residential subdivision.

C. In nonresidential subdivisions. After parkland fees have been calculated, a subdivision, not otherwise classified as a residential subdivision, that changes the use to include dwelling units or increases the density of dwelling units within the subdivision, shall trigger a recalculation of parkland fees or parkland dedication under Section 38.20. If additional fees are due or if the recalculation requires parkland to be dedicated, then such fees shall be paid, or dedication provided, prior to the issuance of any building permit.

D. The requirement to provide parkland to the city pursuant to this title shall not be satisfied using land required to be conveyed by the subdivider to the city as part of a separate legal instrument, condition, covenant, contract, agreement, sale or ordinance.

38-20.3 Parkland calculation.

A. Rate.

1. Where a residential subdivision application is filed, the amount of parkland required to be deeded to the city shall be as follows:

a. Single-Family and Two-Family Units. One acre of parkland for every one hundred dwelling units calculated as follows:

"x" = "y"/100

Where:

"x" is the amount of acres of parkland required to be deeded, and

"y" is the number of dwelling units in the subdivision.

b. Multifamily. One acre of parkland for every two hundred dwelling units calculated as follows:

"x"= "y" / 200

Where:

"x" is the amount of acres of parkland required to be dedicated;

"y" is the gross acres of the proposed multifamily subdivision; and

"z" is the density of the proposed multifamily subdivision.

B. Types of parkland that may be dedicated. The following park configurations of land may be proposed by the subdivider to meet the dedication requirements of this chapter. The lands to be dedicated and the type of dedication to be provided shall be based on the affirmative recommendation of the city planner and the approval of the planning and zoning commission.

If the city planner does not provide an affirmative recommendation, the developer may appeal the city planner's decision. The planning director shall provide to the developer, in writing, the reasons for the denial. The appeal will require the developer to file with the city manager an appeal within fifteen business days from receiving the city planner's decision. The appeal shall be accompanied by the following:

(a) A thirty-day waiver of the thirty-day statutory requirement for approval of the subdivision plat.

(b) The reasons for the appeal. Upon receipt of the appeal, the planning director shall place the appeal on the next available planning and zoning commission meeting. The planning and zoning commission may overturn the city planner's decision by a super majority, which shall be three fourths of the planning and zoning commission present and voting. In determining whether to overturn the city planner's decision, planning and zoning commission shall consider any evidence presented by the developer and city planner. In no instance can the planning and zoning commission modify or vary any City Code requirements.

An alternative type of dedication may be recommended by the planning director, based on the specific nature of the subject property. Any dedication that is proposed shall meet the requirements of Section 38-20.5, except as noted in this chapter.

1. Neighborhood parks. Lands for parks that serve a neighborhood shall be of the quantity determined by the density of the residential subdivision submitted pursuant to Section 19-20.3. The developer may satisfy Section 38-20.3 by providing multiple park sites that comply with Section 38-20.5, for a residential subdivision application.

2. Dual park-pond. Parks and drainage retention or detention ponds may be placed side by side or combined to provide for larger and more efficient park and open space lands for neighborhoods.

a. Park-ponds requirements. For purposes of this subsection, the ponding area proposed for use as a park-pond shall require an affirmative approval for park usage by the public works director,

subject to the provisions below being met. Where acceptable, the pond portion of the park may count towards the required parkland dedication amount at ratio of one acre of park-pond for every one acre of required parkland dedication, subject to the following requirements being met.

i. To be considered as a park-pond, the proposed facility must be located no further than one-half mile from all residences that it is intended to serve. The street frontage for the park-pond shall be continuous along one complete side of the park or thirty-five percent of the park perimeter whichever is greater.

ii. Flat perimeter areas on the rim of the ponding basin shall be provided. These shall be a minimum of ten feet in width from the edge of the pond slope to the nearest property line to allow for a trail, landscaping and pond maintenance requirements. If abutting a seven-foot sidewalk or trail the flat perimeter area shall be a minimum of five feet. Wider and variable width areas are preferred to create a more parklike appearance.

iii. A park-pond shall have a flat contiguous park area adjacent to the detention/retention basin that is not subject to periodic inundation (ten-year storm frequency). This area shall be a minimum of one-half acre in size or larger, including the area of the one closest adjacent perimeter flat zone. This area shall meet the minimum improvements requirements set forth in Section 38-20.5(B). as may be found to be warranted and applicable to a park-pond by the public works director. For park-ponds where the pond portion is over two and one-half acres in size, the size of the upper area shall be at least twenty percent of the area of the pond. This area shall be shaped to accommodate the placement of permanent park structures such as play features, multi-purpose courts and shade pavilions.

iv. Side slopes in park-ponds shall not exceed a maximum three to one horizontal to vertical slope. Flatter side slopes are recommended.

v. If a two-tier park-pond is designed, then the lower tier flat area shall not be less than twenty percent of the upper tier flat area.

vi. The maximum depth of the pond portion of a park-pond shall not exceed ten feet for a two-tier park-pond and six feet for a one tier park-pond.

vii. Perimeter areas around the pond shall be planted to create an attractive buffer zone around the park-pond. Plant materials and required irrigation system(s) must be installed and operational at the time the city accepts the facility. All irrigation and planting shall meet the park facilities standards referenced in Section 38-20.5.

viii. Signs shall be provided to inform the public of the dual park-pond purpose and to notify them of the potential safety hazard from stormwater detention/retention.

ix. Percolation tests at the bottom of the park-pond basin shall be performed according to ASTM 5126. Stormwater shall percolate within seventy-two hours or as may be approved by the city engineer or other designee of the city manager.

x. A fully accessible route that meets Americans with Disabilities Act (ADA) standards to the lower park area in the basin of the pond shall be provided.

xi. Grading, irrigation and turf in accordance with Section 38.20.5 B.3.d.

b. Other ponds not serving as park ponds. Shall meet minimum placement, setback and landscaping requirements as established by the City of Socorro pond and drainage design requirements.

3. Linear park corridors and trail development. Trail corridors may be dedicated and constructed by the subdivider, and may serve as credit against required parkland, subject to the following conditions being met:

    a. Where adjacent to private property lines on either side of the corridor, the trail corridor shall be a minimum of thirty feet in width;

    b. Where the trail corridor is adjacent to a permanently preserved corridor such as a drainage channel or natural open space, the additional trail corridor width may be reduced to fifteen feet. A minimum of ten feet from the nearest edge of the trail adjacent to a private property line shall be maintained except where separated from such private property by a wall;

    c. If the trail corridor is located adjacent to a street right-of-way, the trail corridor shall be a minimum of fifteen feet in width as measured from the adjacent back of curb.

    d. Trails shall be a minimum of eight feet in width. Narrower trails will not count as credit towards parkland requirements. Trail surface material shall follow the requirements of the City of Socorro Parks Masterplan. The City of Socorro may elect to contribute to the cost of the trail if a width wider than eight feet is deemed appropriate for that specific location;

    e. Public access points to the corridor shall be provided at regular intervals. The linear areas adjacent to the corridor shall have open space, street ROW, or other opportunities for immediate and safe ingress/egress along at least seventy-five percent of the corridor length on one side or the other;

    f. A zone that is a minimum of five feet wide along each side of the trail shall be improved with a natural non-irrigated landscape treatment, following guidelines contained in the parks facility standards referenced in Section 38-20.5.

    g. Trails may be built on power line or other utility corridors, but in cases with corridor lands whose ownership is not fully transferable to the City of Socorro, only the lands under built trails and those improved areas meeting the requirements of this subsection will count towards the parkland dedication requirements of this chapter. In such cases, the easement holder or right-of-way owner must provide legal acceptance allowing the trail to be built with free public access provided in perpetuity;

    h. Trail standards in this title may be modified by the planning and zoning commission based upon the recommendation of the city planner;

    i. Trail corridor lighting shall not be required where earthen trails are provided nor where corridors are located in public right-of-way and street lighting is provided. Otherwise lighting may be required by the city planner or designee.

38-20.4 Reserved.

38-20.5 Standards for deeded parkland.

A. General characteristics. Parkland deeded to the city as provided in this chapter shall meet the standards set forth below:

1. The parkland shall be placed in a location near the center of the subdivision or subdivisions that it serves, with the expressed goal that the park is no further than one-quarter mile measured by walking distance from any residence within the subdivision that it serves;

2. Where the subdivision is an initial phase of multiple phases, the park may be located so that it is accessible to the future phases, provided that the park meets the requirements of Subsection A.1. above;

3. Parklands submitted for dedication shall be located so that users are not required to cross arterial roads to access the park site from within the subdivision, and shall not abut an arterial except in the following circumstances:

    a. Parks over twelve acres may abut an arterial on one side; or

    b. The arterial has no more than four lanes and has on-street parking; or

    c. Parks permitted in Section B.4. (Alternate Park Type Table).

4. If the park is one acre or larger, the entire boundary of the parkland shall abut either a public or private street, dedicated open space or arroyo. Parks of less than one acre shall abut a public or private street, dedicated open space or arroyo on at least two sides. Buildings on lots that have frontage on streets that abut the park shall face the park. Residential lots may abut parkland provided that the subdivider incorporates the following standards:

    a. Pedestrian connectivity between the parkland and adjacent lots is provided,

    b. That a front build-to line, in accordance with the zoning ordinance, is delineated on the plat so that residential structures face the park, and

    c. The park site shall share at least one boundary line with a public or private street;

5. The parkland should, when possible, be located adjacent to school sites, or public open space to facilitate shared facilities;

6. When parkland is deeded to the city as required by this title, the area of the park shall be calculated from the nearest property line or street right-of-way line, and not from the existing or proposed curb line of an adjacent street, unless park features are incorporated into the parkway. Sidewalks and signs shall not count as park features that allow the inclusion of the parkway area as part of the park area calculation; and

7. Where possible, parkland shall be designed and located within a subdivision to allow for an extension or connection to a public park or other public recreational facility within an abutting subdivision.

B. Minimum improvements for lands to be dedicated as parklands. Parkland deeded to the city shall meet the following minimum improvements described by this subsection.

1. The subdivider shall indicate the proposed parkland improvement(s) within the subdivision improvement plans as required in Section 38-13.1

2. Construction of the required minimum parkland improvement(s) shall be in accordance with the approved subdivision improvement plans, and shall be completely installed and constructed by the subdivider within the time period specified for construction of subdivision improvements in this title.

3. An improved park shall, at a minimum, include the following:

    a. Paving frontage, curbing, and gutter for all street frontages abutting the outside perimeter of the parkland;

b. Utility (water, sanitary sewer and electricity) extensions to the perimeter of the park and that are consistent with published Lower Valley Water District rules;

c. An accessible route shall be installed per the Texas Accessibility Standards (TAS) on all street frontages abutting the outside perimeter of the parkland of a minimum width and construction to provide accessibility to individuals with disabilities as provided by the Texas Accessibility Standards (TAS). The sidewalk alignment and width shall be approved by the director of parks and recreation;

d. Grading, automatic irrigation and turf within the parkland boundaries shall be installed prior to the acceptance of the proposed parkland submittal. The design and installation shall be approved by the director of the parks and recreation department. The city council may, upon an affirmative recommendation city planner, allow parkland to remain undisturbed in its natural state;

e. One age appropriate play structure unit entirely covered by a metal shade canopy, for either ages two—five years or ages five—twelve years, with a minimum 50-foot by 50-foot user zone, including an appropriate safety surface that meets industry requirements. If a play structure already exists within a dedicated park within one-fourth mile, other comparable amenities entirely covered by a metal shade canopy of comparable size may be provided such as basketball courts, outdoor exercise stations, splash pads, or picnic tables.

f. A minimum of two accessible shaded picnic tables, or four benches or a combination of benches and tables, per acre on concrete pads;

g. A minimum of two trash cans per acre on a concrete pad;

h. Pedestrian-oriented perimeter lighting along adjacent public and private street rights-of-way and one light at the playground or focal point of the park;

i. Where open space lands to be left in an undisturbed state are accepted as required parklands, grading, automatic irrigation and turf establishment requirements shall be waived;

j. Standards.

    i. Facilities and improvements provided by a subdivider on lands dedicated as parkland shall be designed and installed to meet the minimum standards of this chapter. The parks facilities standards shall be approved by the planning and zoning commission and the city council. The parks facilities standards may be changed from time to time, but each change shall be approved by the planning and zoning commission and the city council.

    ii. Facilities and improvements of a park developed for and owned by the city, shall be designed and installed to meet the minimum standards of the following, or as otherwise approved by planning director, in accordance with related federal, national, state, or local codes, including but not limited to the following:

        1. International Play Equipment Manufacturer's Association (IPEMA);

        2. Consumer Product Safety Commission (CPSC) Handbook for Public Safety;

        3. American Society for Testing and Materials (ASTM);

        4. Accessibility Standards for Play Areas through the ADA Accessibility Guidelines (ADAAG);

        5. Illuminating Engineering Society of North America (IESNA RP-6-01);

        6. Sports Turf Management Association (STMA); and

7. American Society for Testing and Materials (ASTM F08).

k. Street trees shall be provided in the parkway abutting the park at twenty-foot intervals.

j. In addition to the street trees, shade trees shall be provided at a minimum of ten trees per acre.

4. The subdivider may use one or more of the designs in the approved alternate park type table (a) and shall receive full credit towards parkland dedication requirements (unless otherwise stated in the table), provided all requirements listed in the table are met. In developments larger than thirty acres, at least two different park types are required.

Alternate Park Type Table:

Park Type	Tot. Lot	Pocket Park	Green	Plaza	Square
Size	< ¼ acre	¼—½ acre	½—8 acres	¼—2 acres	½—5 acres
Location	Residential/Commercial/Mixed Use	Residential/Commercial/ Mixed Use	Low-Medium Density Residential	Commercial/ Mixed Use/High Density Residential @ Intersection of roads on the City's MTP with street frontage on 4 sides; abutting buildings must face the plaza.	Mixed Use/High Density Residential @ Intersection roads on the City's MTP with street frontage on 4 sides; abutting buildings must face the square.
Requirements	B.3.a-k;	B.3.a-k; except that e. (play structure) is required in a residential area; but any of the following may be substituted in a commercial or mixed-use area: basketball court, outdoor exercise stations or gazebo with a combined structured shade area at least 900 sf & 4 picnic tables or benches or a combination.	B.3.a-k; except that the following may be substituted with approval of Parks Director for e. (play structure) when a play structure within a dedicated park already exists within ¼ mile of the green: basketball courts, outdoor exercise stations, splash pad, gazebo with a combined structured shade area at least 900 sf & 4 picnic tables or benches or a combination, trails, amphitheaters.	B.3.a-d, f-k; primarily hardscape surface; a focal point must be provided (such as a fountain or water feature or gazebo with a combined structured shade area at least 900 sf & 4 picnic tables or benches or a combination).	B.3.a-d, f-k; a focal point must be provided (such as a fountain, water feature, splash pad, outdoor exercise stations or gazebo with a combined structured shade area at least 900 sf & 4 picnic tables, benches or a combination).
Optional	N/A	Up to 10% of the dedicated acreage may be landscaped with shrubs, screenings or crushed rock.	Up to 10% of the dedicated acreage may be landscaped with shrubs, screenings or crushed rock.	Up to 10% of the dedicated acreage may be landscaped with shrubs, screenings or crushed rock.	Up to 10% of the dedicated acreage may be landscaped with shrubs, screenings or crushed rock.
Conditional	N/A	N/A	10-30% of the dedicated acreage may be open space left in	N/A	N/A

			an undisturbed state depending on topography, wildlife habitat, or aesthetic value; up to 50% credit for open space subject to approval of Parks Director.		

5. The subdivider shall be required to submit development construction plans that conform to this title, construction and specification standards. The parks and recreation department will review the construction documents for compliance with city park construction requirements. The developer must agree to standard city construction inspections of the park improvements.

38-20.6 Exclusions from dedication requirement.

Exclusions. The following shall be excluded from the calculation for parkland dedication. In all instances, the burden of proof shall be on the subdivider to demonstrate that the plat meets the requirements of this chapter:

A. A residential replat of an area where the density has not been increased from the original subdivision, as evidenced by the original subdivision and replat. In the case of a replat where parkland was not originally provided, the parkland requirements shall prevail;

B. A replat or an amendment to a subdivision plat where the only change to the original subdivision plat is that easements or rights-of-way are eliminated, added or changed and there is no increase in density.

C. A nonresidential replat which changes the lot location or design, but where the acreage has not been increased, as evidenced by the original subdivision and replat;

D. A replat which changes the use of the original subdivision from residential to nonresidential, and the fees paid (or the equivalent fees which would have been paid based on parkland dedicated) on the original subdivision are more than or equal to the fees required on the replat;

E. A replat which changes the use of the original subdivision from nonresidential to residential, and the fees paid on the original subdivision are more than or equal to the fees required on the replat;

G. Land shown within an amending subdivision where density is not increased, as evidenced by the original and amending subdivisions; or

H. Land shown within a subdivision, whether residential or nonresidential, which is designated for use as a public facility.

38-20.7 Deed conveyance.

Subdivision Dedication. Parkland to be conveyed as part of a residential subdivision application shall be designated as city property on both the preliminary and final plats. At the time the recording plat is submitted, the subdivider shall deliver to the planning official a warranty deed conveying fee simple title of all parkland shown on the final plat approved by the city council. The city shall join as a signatory on the subdivision, but shall have no responsibility to provide any public improvements shown within the approved final plat beyond the general responsibilities the city has to improve and maintain all of its parks. If the subdivider has deferred the obligation to install public improvements to serve a subdivision until after recordation of the final plat under this title, then the warranty deed as required in this section shall be submitted prior to final inspection of public improvements under this title. No acceptance of public improvements under this title shall be provided until the subdivider provides a warranty deed in accordance to this section. Delivery of a warranty deed does not constitute acceptance of any

improvements by the city. The planning official will record the warranty deed following acceptance of the public improvements as provided in this title.

38-20.8 Reserved.

38-20.9 Providing private park facilities to satisfy required parkland dedication or fee requirements.

A. Private Park Facilities. Where park areas and recreational facilities are to be provided in a proposed single family, duplex, or multifamily development, the required parkland may be satisfied provided that the following criteria are met:

1. Facilities shall be privately owned and maintained by the future residents of the subdivision or by the owner of a rental facility.

2. Private ownership and maintenance of such areas and facilities shall be adequately provided for by recorded written agreement, conveyance, or restrictions;

3. The use of such areas and facilities shall be restricted for park and recreational purposes by a recorded covenant, which runs with the land in favor of the future owners of property and cannot be amended or removed without the consent of the city council;

4. The areas, improvements and facilities wishing to receive credit shall be reasonably similar or comparable to what would be required to meet public park and recreational needs of this chapter.

B. Recreational Facilities. No credit shall be given for recreational facilities other than the land upon which those facilities are located as defined in this chapter.

C. Size of Park Areas. Open turf or play areas and/or park recreational areas may be of any size provided that a total of one quarter (¼) acre total functional park space to meet the recreational needs of residents is provided. Functional park space areas may include parks, child play areas, multi-purpose courts, and other similar facilities. However, swimming pools, community, recreational or exercise buildings, and similar facilities shall not be eligible for credit. Any open turf or play area used for parkland dedication credit shall be commonly accessible by all residents and not be used in calculating minimum landscaping requirements in Title 18, any required zoning condition such as a landscaped buffer, be part of any required set back, any yard (front, side, rear) for any single-family home requirement placed as a condition to detailed site plan approval, or any other building code requirement.

D. Credit Calculation.

1. One acre of private parkland shall count as credit for one-half acre of the required parkland dedication. The parkland requirement may be satisfied in its entirety by providing private parkland which meets the criteria in this section.

2. If the required parkland dedication cannot be completely satisfied by providing private parkland, any remaining requirement can be satisfied as follows:

a. Through the dedication of public parkland.

b. Through improvements to existing parkland within the City of Socorro, provided that if the improvement costs are above $50,000.00 a developer participation agreement is entered into and complies with the provisions of the state statute that governs developer participation agreements or if below $50,000.00, a developer's agreement is entered into.

c. Payment of fees.

E. All private parkland dedication and improvements, improvements to existing parkland, or fees in lieu of dedication, or in combination shall require the approval of the city council upon the affirmative recommendation of the city planner.

38-20.10 Fee in lieu of parkland dedication.

A. When Applicable.

1. Residential Subdivisions. The city may require a cash payment in lieu of parkland dedication under the following circumstances:

a. When an area of parkland less than one acre is required to be dedicated, or less than two acres if there is an existing park within one-half mile, and upon the recommendation of the city planner;

b. Where the city planner determines that the park needs of the subdivision would be better served by developing other parks within the city;

2. Nonresidential Subdivisions. The subdivider shall be required to pay fees in lieu of the dedication of parkland dedication for all nonresidential subdivisions applications. Where the city planner recommends that the park needs of the City of Socorro would be better served by preserving existing open space lands on the property or by developing other parks in the city, the developer may use the following use the following:

a. An amount equal to the fee required for the nonresidential subdivision may be used by the subdivider to provide additional park facilities in an existing or proposed park within the City of Socorro. The types of facilities to be provided and the proposed location for those facilities shall be subject to approval by the city planner.

B. Fee Calculation. Where the city requires or accepts payment of cash in lieu of the dedication of parkland, such payment shall be equivalent to the following:

1. Residential Subdivisions.

a. Single-family and two-family: six hundred fifty (650.00) per dwelling unit;

b. Multifamily: three hundred forty dollars per dwelling unit.

2. Nonresidential Subdivisions. One thousand dollars per gross acre multiplied by the number of acres rounded to two decimal places, with a minimum of three hundred and thirty-three dollars for a subdivision of less than one-third acre.

3. These fees shall be indexed to any increase in the National Consumer Price Index (CPI) and adjusted no less frequently than every three years.

C. Form Tendered. A cash payment made pursuant to this chapter shall be tendered in the form of a cashier's check, payable to the City of Socorro. The cashier's check shall be submitted to the city manager or designee and shall accompany the recording plat submission.

D. Refunds. Under no circumstance shall fees received in lieu of parkland dedication required by this chapter be refunded to a subdivider.

38-20.11 Parkland fees special fund.

A. Fund Established. The city shall establish a special fund for the deposit of all sums paid in lieu of parkland dedication pursuant to this chapter. The city shall account for all sums paid in lieu of parkland dedication with reference to the individual subdivisions involved, and all sums received shall be committed by the city within three years from the subdivision recordation. If an extension is granted for the subdivision recordation or subdivision improvements, the same extension shall apply to the time for commitment of park fees.

B. When Funds are Considered to be Committed. For purposes of this chapter, funds shall be considered committed:

1. When funds are encumbered for expenditure on equipment and materials;

2. When funds are set aside under an earnest money agreement for the purchase of parkland;

3. When funds are to be awarded under a bid in process; (or)

4. When funds encumbered are not expended because of delays by reason of strikes, court action or any similar impediment which renders it impossible or illegal to spend the money.

C. Time Extensions. Where the sums cannot be committed within the initial three-year time period, the city planner may request time extensions for expenditure of the sums from the city council in one-year intervals; except that no more than two one-year time extensions may be granted by the city council. The extension request(s) shall be submitted in writing to the city manager or designee sixty days prior to the expiration period for sums to be committed by the city, and shall include a detailed justification for the extension request(s). If an extension is granted for the subdivision recordation or subdivision improvements, the same extension shall apply to the time for commitment of park fees.

38-20.12 Applicability.

A. Subdivision Related Dedication.

1. Subdivision. A subdivision application filed with the City of Socorro and approved by City Council after November 1, 2022, shall be subject to the parkland dedication regulations as herein codified.

Section 2. Except as expressly herein amended, Chapter 38 (Subdivision) of the Code of Ordinances of the City of Socorro, Texas, shall remain in full force and effect.

Section 3. Savings/Repealing Clause.

This Ordinance shall be cumulative of all other Ordinances and shall not repeal any of the provisions of such Ordinances except for those instances where there are direct conflicts with the provisions of this Ordinance. Ordinances or parts thereof in force at the time this Ordinance shall take effect and that are inconsistent with this Ordinance are hereby repealed to the extent that they are inconsistent with this Ordinance. Provided however, that any complaint, action, claim or lawsuit which has been initiated or has arisen under or pursuant to such Ordinance on the date of adoption of this Ordinance shall continue to be governed by the provisions of that Ordinance and for that purpose the Ordinance shall remain in full force and effect.

Section 4. Severability Clause.

Should any section, subsection, sentence, clause or phrase of this Ordinance be declared unconstitutional or invalid by a court of competent jurisdiction, it is expressly provided that any and all remaining portions of this Ordinance shall remain in full force and effect. The City of Socorro hereby declares that it would have passed this Ordinance, and each section, subsection, sentence, clause or phrase thereof irrespective of the fact that any one or more sections, subsections, sentences clauses and phrases be declared unconstitutional or invalid.

Section 5. Publication/Effective Date.

This ordinance shall take effect immediately from and after is passage and publication of the caption, as required by law.

FROM: Alejandra Valadez, City Development Director, City of Socorro

SUBJECT:

Discussion and action to approve a Resolution authorizing the City of Socorro to submit an application to establish a Foreign Trade Zone under the Alternative Site Framework as defined in 15 CFR 400.2(c).

SUMMARY

The City of Socorro will approve a resolution authorizing the submission of a Foreign Trade Zone application.

STATEMENT OF THE ISSUE

Foreign Trade Zones (FTZs) are special areas in the United States that benefit companies by reducing import duties and other costs. FTZs encourage domestic manufacturing, help to create and maintain local employment, and promote U.S. economic growth. FTZs are attractive to local governments because they encourage job retention and private investments locally, and also generate revenues for a municipality.

Authorization from City Council is requested to file an ASF application with the Foreign-Trade Zones Board ("FTZB") to establish the City as an FTZ grantee for that portion of El Paso County designated as the Service Area as can be observed in the map included in the backup.

The City of Socorro is focused on creating a positive environment for the economic expansion within its city limits and believes that having an FTZ designation will help the City elevate its position as a regional magnet for international trade and development.

Please see the resolution and map of service area attached in the backup.

RESOLUTION 720

A RESOLUTION OF THE SOCORRO CITY COUNCIL AUTHORIZING THE CITY OF SOCORRO TO SUBMIT AN APPLICATION TO ESTABLISH A FOREIGN-TRADE ZONE UNDER THE ALTERNATIVE SITE FRAMEWORK AS DEFINED IN 15 CFR 400.2(c).

WHEREAS, the City of Socorro hereinafter referred to as the "City" continues to focus on creating a positive environment for the economic expansion to cover its city limits in El Paso County Texas; and

WHEREAS, the City is located within an underserved area from a Foreign-Trade Zone ("FTZ") perspective; and

WHEREAS, the City recognizes that having an FTZ in the Socorro area will complement the City's overall goal for economic expansion by allowing the City to offer easier access to FTZ benefits for existing and new businesses; and

WHEREAS, the City believes that having an FTZ designation will help the City elevate its position as a regional magnet for international trade and development; and

WHEREAS, the City is authorized by Sec. 681.052 of the Texas Business and Commerce Code to apply for and accept a grant of authority to establish, operate, and maintain a foreign trade zone and subzones; and

BE IT RESOLVED that the City Manager or her designee is hereby authorized to file an ASF application with the Foreign-Trade Zones Board ("FTZB") to establish the City as an FTZ grantee for that portion of El Paso County designated as the Service Area and as attached to the resolution.

IN WITNESS OF WHICH, I have set my hand and caused the Official Seal of the City of Socorro to be affixed hereto this 3th day of November 2022.

FROM: Alejandra Valadez, City Development Director, City of Socorro

SUBJECT:

Discussion and action to submit a grant application to the FY 2022 West Texas HIDTA Program and accept the grant award in the amount of $61,533.00 for the Socorro Police Department. There is no match requirement for this grant.

SUMMARY

The federal government has appropriated funds to the City of Socorro's Police Department for their participation in the FY 2022 West Texas High Intensity Drug Trafficking Area program (HIDTA) Program. The City will submit a grant application, accept the grant award, and continue the SPD's participation in the HIDTA Program.

STATEMENT OF THE ISSUE

The Socorro Police Department has participated in the West Texas HIDTA Program in FY17, FY18, FY19, and FY21. The U.S. Office of National Drug Control Policy has allocated FY 2022 funds for the Socorro Police Department to fund the salary and benefits of one (1) law enforcement officer participating in this initiative. The City must submit a grant application, and accept the grant award, in order to continue the SPD's participation in the WTX HIDTA program.

CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities," in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly. This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

Statement for Loan Guarantees and Loan Insurance

The undersigned states, to the best of his or her knowledge and belief, that:

If any funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this commitment providing for the United States to insure or guarantee a loan, the undersigned shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities," in accordance with its instructions. Submission of this statement is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required statement shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

TO: MAYOR AND CITY COUNCIL MEMBERS

FROM: Alejandra Valadez, City Development Director, City of Socorro

SUBJECT:

Discussion and action to approve the proposed updates to the spending framework for City of Socorro's allocation under the Coronavirus Local Fiscal Recovery Fund (CLFRF) approved in the American Rescue Plan Act (ARPA).

SUMMARY

The City of Socorro will approve updates to the spending framework for the City of Socorro's allocation under the Coronavirus Local Fiscal Recovery Fund (CLFRF) approved in the 2021 ARPA. The spending framework includes COVID-19-related expenses, assistance to small businesses, households, and non-profits, aid to impacted industries, and public infrastructure.

STATEMENT OF THE ISSUE

City Council approved a spending framework for the City of Socorro's allocation of CLFRF ARPA funds on October 28, 2021 based on the eligible costs and guidance provided by the U.S. Treasury. **City Council approval is requested to update the spending framework and approved the detailed budgets as attached in the backup for this item**.

The American Rescue Plan Act of 2021 is a US $1.9 trillion economic stimulus bill passed by the 117th United States Congress and signed into law by President Joe Biden on March 11, 2021. The Coronavirus State and Local Fiscal Recovery Funds (CSLFR) approved under ARPA provides a substantial infusion of resources to help turn the tide on the pandemic, address its economic fallout, and lay the foundation for a strong and equitable recovery.
The funding objectives of the Coronavirus State and Local Fiscal Recovery Funds (CSLFR) are to:

- Support urgent COVID-19 response efforts to continue to decrease spread of the virus and bring the pandemic under control
- Replace lost revenue for eligible state, local, territorial, and Tribal governments to strengthen support for vital public services and help retain jobs
- Support immediate economic stabilization for households and businesses
- Address systemic public health and economic challenges that have contributed to the unequal impact of the pandemic

As a non-entitlement unit of local government (NEU), the City of Socorro has received a direct allocation of funding to be administered in two tranches (each tranche representing half of the NEU's allocation) by the Texas Division of Emergency Management (TDEM).

The City's total ARPA allocation is **$8,533,234.18**.

Please see attached.

FINANCIAL IMPACT

Account Code (GF/GL/Dept): N/A

Funding Source: N/A

Amount: N/A

REQUIRED AUTHORIZATION

1. **City Manager _____ Date_____**
2. **CFO _____ Date_____**
3. **Attorney _____ Date _____**

WORK AUTHORIZATION NO. 3
AGREEMENT FOR ENGINEERING SERVICES

THIS WORK AUTHORIZATION is made pursuant to the terms and conditions of Article 5 of Engineering Contract No. **22-07-01** (the Contract) entered into by and between the City of Socorro, Texas, and **Camacho-Hernandez and Associates, LLC** (the Engineer).

PART I. The Engineer will perform engineering services generally described as **preliminary engineering services for development of a design schematic, environmental documents/studies in support of the schematic work, public involvement, permit procurement, mitigation and remediation, monitoring, hydrology & hydraulics, drainage, traffic control, construction phase, surveying and mapping, row acquisition, geotechnical services, for PS&E services for the Sparks Arroyo project in the City of Socorro, Texas** in accordance with the project description attached hereto and made a part of this WorkAuthorization. The responsibilities of the City and the Engineer as well as the work schedule are further detailed in exhibits A, B and C which are attached hereto and made a part of the Work Authorization.

PART II. The maximum amount payable under this Work Authorization is **$1,759,710.39** and the method of payment is Specified Rate as set forth in Attachment E of the Contract. This amount is based upon fees set forth in Exhibit E-1, Summary of Detailed Fee Schedule, of the Contract and the Engineer's estimated Work Authorization costs included in Exhibit D, which is attached and made a part of this Work Authorization.

PART III. Payment to the Engineer for the services established under this Work Authorization shall be made in accordance with Articles 3 thru 5 of the contract, and Attachment A, Article 1.

PART IV. This Work Authorization shall become effective on the date of final acceptance of the parties hereto and shall terminate on **September 21,2025**, unless extended by a supplemental Work Authorization as provided in Attachment A, Article 1.

PART V. This Work Authorization does not waive the parties' responsibilities and obligations provided under the Contract.

Each party is signing this agreement on the date stated under that party's signature.

LIST OF EXHIBITS

Exhibit A	Services to be provided by the City
Exhibit B	Services to be provided by the Engineer
Exhibit C	Work Schedule
Exhibit D	Fee Schedule

EXHIBIT A

SERVICES TO BE PROVIDED BY THE CITY

County: El Paso
Project: Sparks Arroyo Drainage project
Project Length: Approximately 2.6 miles

The City will provide to the Engineer the following to proceed with investigations, reviews and/or design:

1. Historical Records
2. Existing Studies
3. Applicable drawings
4. Existing working files from previous consultant, including sub consultant files
5. Issue all Work Authorizations to initiate all required services and designate the authorized representative of the coordination of each work authorization
6. Copies and or files of all subdivision plats of record and/or in the subdivision process
7. On-going guidance, timely reviews, and decisions necessary to complete the services required by the work authorization in order for the Engineer to maintain an agreed upon project schedule
8. Process all acceptable requests for payment in a timely manner
9. Payment for work performed by Camacho-Hernandez and Associates, LLC. and accepted by the client.
10. Provide timely review and decisions in response to Consultant request(s) for information and/or required submittals and deliverables, in order for Consultant to maintain the agreed-upon work schedule.
11. Attend/Participate in progress meetings, as required.
12. Assistance from the client, as necessary, to obtain the required data and information from other local, regional, State and Federal agencies that consultant cannot easily obtain.

EXHIBIT B

SERVICES TO BE PROVIDED BY THE ENGINEER

County: El Paso
Project: Sparks Arroyo Project
Project Length: Approximately 2.6 miles

The work to be performed by the Engineer shall consist of providing engineering services for completion of a design schematic, environmental documents/studies in support of the schematic work, limited public involvement, permit procurement, mitigation and remediation, drainage, conceptual traffic control, surveying, mapping and P.S.& E. services for Sparks Arroyo project located in the vicinity of the City of Socorro.

The Engineer shall complete schematic and environmental services along this segment of Sparks Arroyo. The proposed scope consists of upgrading existing arroyo streams and recommend improvement to drainage crossings in an effort to comply with previous drainage studies.

The Engineer shall complete the services to be provided by the Engineer according to the milestone work schedule established in the work authorization. The Engineer shall submit a written progress report to the City of Socorro monthly indicating the actual work accomplished during the month, scheduled work to be accomplished for the month, and the estimated work to be accomplished for the coming month. The progress report will use a bar chart diagram to indicate the percentage complete of each task shown on the previous report and the percentage complete of each task. The Engineer is required to meet with a designated City project manager on a monthly basis for progress tracking purposes unless prior agreement is made with the City not to hold a meeting in any given month. The Engineer shall submit minutes of the meeting summarizing the events of the meeting within seven calendar days after each meeting.

The Engineer shall prepare a project work schedule. The work schedule must incorporate an allocation of time for stage reviews of the design schematic, the environmental documents and PS&E by City personnel. The Engineer shall present the work schedule to the City for review and acceptance, and provide assistance in interpreting the proposed work schedule.

Data Classification. The Engineer shall manage all data and work products according to the terms of the contract, including specifically article 7 of Attachment A.

FUNCTION CODE 102(110) – FEASIBILITY STUDIES

ROUTE AND DESIGN STUDIES

The Engineer shall complete a roadway schematic layout to include projected traffic volumes and existing and proposed typical sections based on a previously established preferred alignment. The Engineer shall furnish Microsoft Office and MicroStation V8i-Geopak computer generated media containing the roadway schematic layout to the State. All supporting attachments and exhibits shall

accompany the schematic layout. All Microstation and Geopak computer generated files containing the roadway design schematic shall be compatible with the software used by the State.

The Engineer shall produce, obtain, review, and evaluate existing and twenty-year projected traffic data for use in the preparation of the schematic design layout. The data shall be utilized in accordance with the requirements for schematic development and consistent with the policies of the State.

The Engineer shall prepare preliminary drawings to identify any potential impacts within the project corridor, including impacts to the nature, cultural, and human environment. Identification should include, but not be limited to all existing and proposed utilities (public and private), structures, burial grounds, neighborhood communities, historical landmarks, and undeveloped areas is required. Any potential utility conflicts and structural impediments must be identified as such. The Engineer shall render assistance to the State for agency meetings as necessary during the development of the schematic design as requested by the State. The Engineer shall also render assistance to the State for meetings with affected property owners (MAPOs), public meetings and a public hearing if requested.

An itemization of the schematic design and engineering work activity to be performed under this contract is detailed below. All designs shall be prepared in accordance with the latest version of: TxDOT Roadway Design Manual, TxDOT Project Development Process Manual, AASHTO Policy on Geometric Design of Highways and Streets, TxDOT Standard Specifications for Construction of Highways, Streets, and Bridges, TxDOT Traffic Operations Manual on Highway Operations, Texas

Manual on Uniform Traffic Control (TMUTCD), Highway Capacity Manual – Transportation Research Board, TxDOT Hydraulic Design Manual, and TxDOT Access Management Manual.

The design schematic horizontal layout will adhere to a design scale of 1 in. = 100 ft (or 1 in. = 200 ft as directed by the State.) The schematic layout, exhibits, and attachments will be developed in English units. All Microsoft Office, MicroStation, and Bentley Open Roads computer graphic files furnished to the State must be submitted in electronic format by means of a - USB media that will be compatible to the State. Schematics will follow the State and Federal Highway Administration (FHWA) standards, the schematic will also follow the CADD standards used by the State and shall be submitted as an original document, accompanied with an original Microstation V8i formatted graphics file. Final copies of the schematic design shall be signed by a professional engineer licensed in the State of Texas.

102.1 Schematic Design Work Outline:

A. Review and Complete Base Maps

The base maps to be used for the analysis and proposed schematic layout shall be reviewed and completed by the Engineer and provided to the City.

B. Planimetrics and Aerial Mapping

Planimetrics, Digital Terrain Modeling (DTM), and aerial photographs shall be performed by the Engineer and provided to the City.

C. Analyze Existing Conditions

Using collected data and base maps, the Engineer shall develop an overall analysis of the existing conditions in order to develop the schematic design. The analysis shall include, but not be limited to the following:

1. Soil Exploration
2. Geotechnical Testing
3. Drainage
4. Traffic Control and Construction phasing sequence

D. Deliverable Schematic

The Engineer shall consider the following in the analysis to optimize the design:

1. Efficient use of the allocated ROW
2. Cross Sections
3. Drainage and Hydraulic design
4. Construction, ROW/easements
5. Construction sequencing
6. Traffic control during construction
7. Roadside safety appurtenances
8. Signage
9. Environmental mitigation
10. Avoidance of utility lines if feasible.
11. Impact of construction delays from utility relocations.

E. Project Management and Coordination

1. The Engineer shall direct and coordinate the various elements and activities associated with developing the design schematic and PS&E development.

2. The Engineer shall prepare the detailed graphic Project Work Schedule indicating tasks, critical dates, milestones, deliverables and City/Texas Water Development Board (TWDB) review requirements. The Project Work Schedule will depict the order of the various tasks, milestones, and deliverables. The Engineer shall review and provide comments on its

elements of the schedule to the City.

3. The Engineer shall submit written monthly Progress Reports to the State.

4. The Engineer shall prepare subcontracts for subconsultants, direct and monitor subconsultants' activities, and review subconsultant work and invoices.

5. The Engineer shall provide ongoing quality assurance and quality control to ensure completeness of product and compliance with the State procedures.

6. The Engineer shall prepare and submit invoices.

F. Data Collection

The Engineer shall conduct field reconnaissance and collect data as necessary to complete the schematic design.

1. Aerial photos, planimetric mapping, and DTM
2. Environmental Data
3. Previously prepared drainage studies
4. Adopted land use maps and plans as available
5. Federal Emergency Management Agency (FEMA) Flood Boundary Maps and Flood Insurance Studies and Models
6. Public and private utility information
7. Plat research for adjacent properties as available.

102.2 Schematic Design – General Tasks

A. ROW/Property Base Map

The Engineer shall review/verify previous information on existing ROW, easements, and property information from as-built plans, ROW maps, and tax records. The Engineer shall complete a base map depicting the information.

B. Typical Sections

The Engineer shall develop both existing and proposed typical sections along ditch alignments.

C. Environmental Constraints

The Engineer shall consider impacts to environmentally sensitive sites during the

schematic design process.

Environmentally sensitive sites include natural, cultural, and the human environment. Examples are historic and archeological resources, burial grounds, neighborhood communities and residential areas, farmland, floodplains, wetlands, endangered species, rare habitats, wildlife corridors, wildlife crossings, parks and nature preserves, geologic features, undeveloped areas, and significant trees.

D. Drainage

The Engineer shall use data from previous studies provided by the City to determine design flows and water surface elevations. The Engineer shall evaluate the adequacy of the existing drainage structures. The drainage study will include the location of retention ponding areas for storing runoff from the project and identify any right of way requirements for locating and constructing new ponding areas and/or other drainage appurtenance required for this project.

The analysis will be provided in a drainage report including:

1. Watershed areas
2. Identify potential utility conflicts and design around them, wherever possible.

E. ROW Requirements

The Engineer shall determine preliminary the ROW requirements based on the proposed alignment, typical sections, design cross sections, terrain, construction requirements, drainage, maintenance, and environmental mitigation requirements.

F. Construction Sequence

The Engineer shall consider the requirements for construction staging and traffic control throughout the development of schematic design to ensure that the proposed design can be constructed. The Engineer shall provide construction phasing assumptions to the State as requested and provide preliminary Traffic Control Plan (TCP) layouts.

102.3 Geometric Design Schematics

The Engineer shall complete design schematics based on the conceptual schematics after the basic layout, and ROW and easements requirements depicted on the conceptual schematics are approved. The Engineer shall use Bentley Open Roads Technology in performing this task.

The geometric schematic must contain the following design elements:

A. Bentley OpenRoads calculated ditch alignments

B. Typical sections of existing and proposed streams

C. Proposed structure locations

D. Existing and proposed major utilities

E. Existing property lines and respective property ownership information

F. Existing ROW and easements

G. ROW and easements requirements adequate for preparation of ROW maps

H. Waters of the US (WOUS)

102.4 Cross-Sections

The Engineer shall use a Bentley 3D OpenRoads model to generate preliminary cross-sections every 50 or 100 feet in conjunction with the Geometric Schematic. The Engineer shall determine earthwork volumes for use in the cost estimate, and shall prepare 11”x17” or roll plots of the cross-sections.

102.5 Preliminary Construction Sequence

The Engineer shall prepare a Preliminary Construction Sequence Layout in conjunction with the Geometric Schematic depicting the phasing and traffic detours anticipated to construct the proposed design for 30%, 60% and 100% milestones.

102.6 Preliminary Cost Estimate

The Engineer shall prepare a preliminary cost estimate for the project, including the costs of construction, required ROW and associated improvements, and eligible utility adjustments. Current State and/or El Paso District unit bid prices will be used in preparation of the estimate.

102.7 Agency Coordination

A. The Engineer shall assist the City in conducting meetings with various agencies to discuss and review the schematic design. The Engineer shall document and respond to issues related to the schematic design.

B. The Engineer shall assist in conducting public meetings and public hearing during the project development process. The Engineer shall complete schematic exhibits, constraints maps, other necessary exhibits, and assist the City in the presentation.

FUNCTION CODE 120(120) – SOCIAL/ECON/ENVIRON STUDIES AND PUPLIC INVOLVEMENT

120.1 Environmental Documentation

PROJECT DESCRIPTION:

The work performed by the CONSULTANT shall involve providing environmental services in support of the CLIENT (City of Socorro) completion of the scope of services for the Sparks Arroyo Texas Water Development Board (TWDB) Project for City of Socorro. The role and responsibility of the CONSULTANT in completing the scope of services is outlined below.

The City of Socorro in cooperation with the TWDB is proposing to mitigate flooding for homes and businesses along the Sparks Arroyo in Socorro, Texas. Due to the funding, the city is required to prepare a Environmental Data Form to TWDB standards and to coordinate with resource agencies such as the U.S. Corps of Engineers, (USACE), U.S. Fish and Wildlife Service (USFWS), Texas Parks and Wildlife (TPWD) and Texas Historical Commission (THC). The Environmental investigations and documentation shall be performed by the CONSULTANT for the proposed improvements described above.

GENERAL:

The CONSULTANT shall furnish all equipment, materials, supplies, and incidentals as needed to perform the services required by this Work Authorization, except as otherwise specified in **EXHIBIT "A".**

The CONSULTANT shall perform all work efforts and prepare all deliverables in accordance with the current TPWD standards. All final deliverables shall consist of one hard copy and one electronic copy both in Word and PDF format.

Within two weeks of the notice-to-proceed, the CONSULTANT shall develop/submit a work schedule identifying milestone activities and/or deliverables.

The Scope of work is outlined in the following tasks:

Task 1: Field Investigations

The CONSULTANT will conduct field investigations along the entire project length to document existing conditions within the project area and survey for environmental constraints found within the project study area. Typical field investigations include wetland delineations, habitat surveys, threatened and endangered species investigations, Waters of the U.S. investigations,

Task 2: Resource Agency Coordination

The CONSULTANT will prepare coordination letters to Resource Agencies, to identify potential environmental and permitting issues; specifically, permits or mitigative conditions required to ensure compliance with environmental regulations specific to the agency's jurisdiction. Typical resource agencies which require coordination on typical TWDB projects are the following:

- U.S. Army Corps of Engineers
- U.S. Fish and Wildlife Service
- Texas Historical Commission
- Texas Parks and Wildlife Department
- Local Flood Plain Administrator

<u>Deliverables:</u>

Draft and Final Resource Agency Letters

Task 3: Environmental Data Form

The CONSULTANT will prepare an Environmental Data Form. The Data Form is a mid-level environmental review which is required by 31 Texas Administrative Code 363.14 of the Texas Water

Development Boards rules for most projects receiving state funding. The purpose of the mid-level review is to ensure the proposed project has been adequately reviewed by regulatory agencies and determine, within a reasonable level of certainty, if the project is expected to have adverse environmental impacts. Most projects financed by the TWDB will qualify for a mid-level environmental review, but for projects that may have numerous environmental impacts that cannot be readily avoided, minimized, or mitigated, may require an Environmental Assessment. An Environmental Assessment, if required would require additional scope and fee.

Deliverables:

Draft and Final Environmental Data Form

Task 4: Cultural Resources

See attached scope from our SUBCONSULTANT for this task.

Task 5: General Management/Coordination

The CONSULTANT shall be required to meet (as required) with designated representatives to report on progress. The CONSULTANT shall be required to prepare and submit, on a monthly basis, prior to the 20th of each month, a formal (written) progress report with a project schedule that indicates the percentage completion of each task outlined.

The CONSULTANT shall perform internal coordination and quality control / quality assurance (QC/QA) on all deliverables associated with this project, and submit certification checks to verify submission. The CONSULTANT shall assist the CLIENT in providing a thorough review and QC/QA of the Final Submission of the Technical reports.

Note: Assumptions Used to Derive the Proposed Scope of Services:

All investigations shall be conducted based on existing literature and mapped data, aerial photographic interpretation, interactions with local and regional experts, and field reconnaissance.

Any technical studies required because of modifications in project design alignment, or alternatives submitted after submittal of the Draft technical reports shall also require an additional scope of work and budget.

The CONSULTANT shall submit an electronic copy of the draft technical reports to the CLIENT for review and comment. The CONSULTANT shall incorporate CLIENT comments into the draft reports, as required by the CLIENT.

The following services area not included in the scope of services for this work authorization and if required, would be conducted under a separate work authorization:

- Phase I, II or III Environmental Site Assessment
- Preparation and coordination for Section 4(f) or Section 6(f)
- USACE Section 404 Individual Permit or Nationwide Permit Pre-construction Notification
- Mitigation Plans
- Preparation of a Biological Assessment or Biological Evaluation
- Section 7 Consultation
- Traffic Noise Workshop
- Phase III Mitigation

- TWDB Environmental Information Document (EID)
- Public Involvement
- Environmental Assessment

FUNCTION CODE 130(130) – RIGHT-OF-WAY (ROW) DATA

RIGHT OF WAY MAPPING

No work involving right-of-way (ROW) data is to be performed until the ENGINEER has given the SURVEYOR written approval of the final location of the proposed ROW lines as approved by TxDOT and the CITY.

A. RIGHT-OF-WAY MAPPING:

1. PURPOSE:
The purpose of right-of-way mapping is to prepare documents suitable for the acquisition of real property interests and the probable issuance of a title policy

2. DEFINITIONS:
For purposes of this Contract, the following definitions shall apply:

2.1. Abstract Map — A drawing to scale prepared from record documents depicting proposed right-of-way lines, existing right-of-way lines, easement lines, and private property lines with relevant grantee names, recording data, and recording dates

2.2. Closure/Area Calculation Sheet — A computer generated print-out of the area and the perimeter bearings, distances, curve data, and coordinates of an individual parcel of land to be acquired

.

2.3. Access Denial Line — A line which indicates specific location where access to the roadway is denied.

2.4. Property Descriptions — A written metes and bounds description delineating the area and the boundary and describing the location of an individual parcel of land unique to all other parcels of land

2.5. Owner — The most current title holder of record as determined by a study of the Real Property Records.

2.6. Parcel Plat — An 8 h inch by I I inch drawing to scale depicting all the information shown on the right-of-way map regarding an individual parcel of land to be acquired.

2.7. Parent Tract — A unit or contiguous units of land under one ownership, comprising a single marketable tract of land consistent with the principle of highest and best use. A parent tract may be described by a single instrument or several instruments. A single parent tract cannot be severed by a public right-of way, easement, or separate ownership which destroys unity of use.

2.8. Parent Tract Inset — A small line drawing, to an
appropriate scale, of the parent tract perimeter placed upon the right-of-way map in the

proximity of the respective parcel. Parent tract insets are used in cases where the parent tract cannot be shown to the same scale as the right-of-way map. Since parent tract insets are used to identify the limits and location of parent tracts, they should include public right-of-ways, utility easements and fee strips, and identifiable water courses which bound the parent tract.

2.9. Point of Beginning (P.O.B.) — A corner of the parcel of land to be acquired, located on the proposed right-of-way line and being the beginning terminus of the first course of the property description.

2.10. Point of Commencing (P.O.C.) — A monumented property corner which can be identified in the Real Property Records and is located outside the proposed right-of-way corridor, For title purposes, the point of commencing should be a monumented back corner of the parent tract. In the event a monumented back corner of the parent tract cannot be recovered, the nearest identifiable monumented property comer located outside the proposed right-of-V/ay corridor may be used

2.11. Preliminary Right-of-Way Layout/Abstract Map — A drawing to scale depicting proposed right-of-way lines, existing right-of-way lines, proposed pavement, access denial lines, the proposed centerline alignment, private property lines, easement lines, visible improvements, visible utilities, the station and offset from the centerline alignment to each Point of Curvature (PC), Point of Tangency (PT), and angle point in the proposed right-of-way lines and to each PC, PT, and angle point in the existing right-of-way lines in areas of no proposed acquisition. (Reference Sample Attached)

2.12. Right-of-Way Maps/Propertv Description/Parcel Plats A series of 22 inch by 34 inch and I l inch by 17 inch drawings to scale depicting the results of relevant elements of records research, field work, analysis, computation, and map making required to determine title, delineate areas and boundaries, locate and describe utilities and improvements to the extent necessary to appraise the value and negotiate the acquisition of individual parcels of private land for a proposed right-of-way project. (Reference Sample Attached)

3. WORK TO BE PERFORMED:

3.1 Preliminary Right-of-Way Layout/Abstract Map:
An abstract map shall be prepared sufficient to determine the following:

3.1.1. Any and all interests of public record held in the land to be acquired.

3.1.2. The total record holdings of an owner contiguous to land to be acquired from that owner.

3.1.3. Any and all interests in land to be acquired held in common (shopping mall parking lots, subdivision reserves, etc.)

3.1.4. Any and all improvements proposed by other agencies which may have a bearing on project development.

3.1.5. All called monuments, bearings, and distances as per recorded information,

3.1.6. Preliminary Parcel numbering system,

3.1.7. Any and all utilities (permitted or of record)

3.1.8. Reference Sample provided

3.2 Right-of-Way Map:

The SURVEYOR shall field locate property corners, existing right-of-way markers, improvements, visible utilities, verify and update the planimetric file, if provided, and as directed by the ENGINEER.

A right-of-way map shall be prepared for each proposed right-of-way project. A right-of-way map shall include a title sheet, an index sheet, a survey control index sheet, a horizontal and vertical control data sheet, and sufficient plan sheets to cover the proposed project, or as directed by the ENGINEER. The STATE has developed standard title sheets, index sheets, and plan sheets, copies of which the SURVEYOR shall request and secure for all purposes of this Contract. Plan sheets shall include, but need not be limited to, the following items of information.

By mutual agreement between the Texas Board of Professional Land Surveying and the TOOT, right-of-way maps need not be signed and sealed by a Registered Professional Land Surveyor.

3.2.1 Proposed right-of-way lines shall be delineated with appropriate bearings, distances, and curve data, Curve data shall include the radius, delta angle, arc length, and long chord bearing and distance.

3.2.2 Existing right-of-way lines shall be delineated with appropriate bearings, distances, and curve data to the extent necessary to describe the individual parcels of land to be acquired, Curve data shall include the radius, delta angle, arc length, and long chord bearing and distance.

3.2.3 The proposed project baseline alignment shall be delineated with appropriate bearings, distances, and curve data. Curve data shall include the station of the curve Point of Intersection (PI), radius, delta angle, arc length, tangent length, long chord bearing and distance, and the N and E coordinates of the curve PI. All alignment PCs, PTS, and even 500 foot stations shall be labeled as to station.

3.2.4 Proposed paving lines combined with relevant existing paving lines shall be shown to the extent necessary to compile a complete picture of proposed traffic movements. Proposed paving on the final mylars submitted to the ENGINEER shall be shaded with a dot pattern or highlighted by some other means acceptable to the ENGINEER.

3.2.5 Access denial lines shall be shown sufficiently to indicate areas where access is to be denied and where access is to be permitted if required by the ENGINEER.

3.2.6 Private property lines shall be delineated with appropriate bearings, distances, and curve data to the extent necessary to describe the individual parcels of land to be acquired. Curve data shall include the radius, delta angle, arc length, and long chord bearing and distance.

3.2.7 Porcion lines, subdivision lines and survey lines shall be shown and identified by name and Porci6n number.

3.2.8 County lines and city limit lines shall be located and identified by name.

3.2.9 A north arrow shall be shown on each sheet, and, if possible, located in the upper

right corner of the sheet.

3.2.10 Monumentation set or found shall be shown and described as to material and size.

3.2.11 A station and offset shall be shown for each PC, PT, and angle point in the proposed right-of-way lines. Stations and offsets shall be with respect to the proposed centerline alignment.

3.2.12 Intersecting and adjoining public right-of-ways shall be shown and identified by name, right-of-way width, and recording data.

3.2.13 Railroads shall be shown and identified by name, right-of-way width, and recording data.

3.2.14 Utility corridors shall be identified as to easement or fee and recording information shall be identified.

3.2.15 Easements and fee strips shall be shown and identified by width, owner, distance of easement to a property corner of the parent track, and recording data.

3.2.16 Building lines or set-back lines shall be shown and identified.

3.2.17 Visible improvements located within the proposed right-of-way corridor or within 50 feet of a proposed right-of-way line shall be shown and identified.

3.2.18 Structures shall be identified as commercial or residential, by number of stories, and as to type (brick, wood frame, etc.).

3.2.19 Structures which are severed by a proposed right-of-way line shall be dimensioned to the extent necessary to completely delineate the severed parts.

3.2.20 Parking areas, billboards, and other on-premise signs which are severed by a proposed right-of-way line shall be dimensioned to the extent necessary to delineate that portion of the parking area, billboard, or sign which is located within the proposed right-of-way corridor.

3.2.21 In cases where structures are located outside the proposed right-of-way corridor and within 25 feet of a proposed right-of-way line, the shortest distance between the structure and the proposed right-of-way line shall be shown and field verified,

3.2.22 Visible utilities located within the proposed right-of-way corridor or within 50 feet of a proposed right-of-way line shall be shown and identified.

3.2.23 The location of underground utilities and fuel storage tanks situated within the proposed right-of-way corridor or within 50 feet of a proposed right-of-way line shall be determined and shown as required by the ENGINEER. The visible location of stand pipes, vents and filler caps in conjunction with available design and as-built drawings may be used to determine a most probable location and size in the event an actual location is indeterminable,

3.2.24 Points of commencing and points of beginning shall be shown and labeled. Points of beginning shall be shown with their respective N and E surface coordinates, As an exception, a point of commencing will not be required in the case of a total taking without a remainder.

3.2.25 Each parcel of land to be acquired shall be identified by a parcel number which shall appear in the ownership tabulation and on the right-of-way map in the proximity of the respective parcel, if the SURVEYOR is unfamiliar with the criteria used by the STATE to assign parcel numbers, he shall seek the assistance of the ENGINEER at the lime the abstract map is complete. THE SURVEYOR SHALL SEEK ASSISTANCE FROM THE ENGINEER m DEVELOPING AN OWNERSHIP TABULATION TABLE,

3.2.26 An ownership tabulation shall be shown which shall include the parcel number, existing area of the parent tract, lot(s) and block(s) constituting the parent tract when applicable, owner's name, type of conveyance, film code, county clerk's file number, taking area, and remaining area of the parent tract located left and/or right of the centerline alignment. Types of conveyance, film code and file numbers refer to conveyances into the STATE and will be added to the right-of-way map by the STATE at a later date. Several blank lines shall be provided in the tabulation block to facilitate future map additions.

3.2.27 A parent tract inset shall be shown for each parent tract which cannot be shown to scale on the right-of-way map. The use of broken scale lines should be avoided. When parent tracl insets are used, the point of commencing with the appropriate bearing and distance to the point of beginning may be shown on the parent tract inset.

3.2.28 A note shall be included on the title sheet and each map sheet staling the source of bearings, coordinates, and datum used.

3.2.29 Appropriate notes shall be included on the title sheet and each map sheet stating the following:

a. Month(s) and year abstracting upon which the map is based.
b. Month(s) and year field surveys were conducted upon which the map is based.
c. Month and year the map was completed by the SURVEYOR.

3.2.30 The right-of-way CSJ number, if available, shall be shown on each right-of-way map sheet.

3.3 Exhibits:

An Exhibit shall be prepared for each parcel or tract consisting of a property description and a parcel plat.

3.3.1. Property Description:

A property description shall be prepared for each parcel of land to be acquired. Standard formats for property descriptions, copies of which the SURVEYOR shall request to the ENGINEER and secure for all purposes of this Contract, Property descriptions shall include, but need not be limited to, the following items of information.

All property descriptions shall be signed and sealed by a Registered Professional Land Surveyor. The property description shall begin with a general description which shall include as a minimum:

a. State, County, and Survey within which the proposed parcel of land to be acquired is located.

b. A reference to unrecorded and recorded subdivisions by name, lot, block, and recording data to the extent applicable.

c. A reference by name to the grantor and grantee, date and recording data of the most current instrument(s) of conveyance describing the parent tract. Use execution dates in deed references as opposed to recording or filing dates. In any case, the property description shall make clear which date is being used, the property description shall continue with a metes and bounds description which shall include as a minimum;

d. A point of commencing,

e. A point of beginning with the appropriate N and E surface coordinates.

f. A series of courses, identified by number and proceeding in a clockwise direction, describing the perimeter of the parcel of land to be acquired, and delineated with appropriate bearings, distances, and curve data.

g. Curve data shall include the radius, delta angle, arc length, and long chord bearing and distance. Each course shall be identified either as a proposed right-of-way line, and existing right-of-way line, or a property line of the parent tract. Each property line of the parent tract shall be described with an appropriate adjoiner call.

h. A description of all monumentation set or found shall include, as a minimum, size and material.

i. A reference to the source of bearings, coordinates, and datum used.

3.3.2. Parcel Plat:

A parcel plat shall be prepared for each parcel of land to be acquired. The STATE has developed standard formats for parcel plats, copies of which the SURVEYOR shall request from the ENGINEER and secure for all purposes in this Contract. Parcel plats shall include each and every item of information shown on the right-of-way map which concerns the individual parcel. All parcel plats shall be signed and sealed by a Registered Professional Land Surveyor

DELIVERABLES:

In preparing right-of-way maps, the following is an outline of the work to be submitted (records should be delivered in a binder):

4.1. An Abstract Map of the current record title holders included in the Preliminary Map showing the proposed schematic and existing right-of-way as per General Specifications defined in 2.1 1.

4.2. A Right-of-Way map for the project limits under cover of Title Sheet) Index Sheet, Control Data Sheet, and Exhibits of the property descriptions and parcel plats as per General Specifications defined in 2, 12, 3.2 and 3.3.

ROW Map Submittal Requirements:

4.2.1. Two (2) paper sets of half-size ROW maps (I I "x 1 7")

4.2.2. One (I) paper set of the full-size ROW maps (22"x 34 [1]')

4.2.3. Four (4) sets of original metes & bounds descriptions (field notes) with parcel plats (signed & sealed by the surveyor). Do not include traverse sheet.

4.2.4. City requires one (I) electronic copy of the ROW Map on a CD, and One (I) copy of the DGN electronic file on a CD from the surveyor Both the electronic copy of the ROW Map and the DGN file can be on one CD.

4.3. Appropriate monuments on the proposed right-of-way lines at intersecting property lines, and at all PCs, PTS, angle points, intersecting right-of-way lines of side streets, and at 1,000 foot stations of the proposed centerline alignment.

4.4. Appropriate monuments on the existing right-of-way lines in areas of no acquisition at all PCs, PTS, angle points, and 1,000 foot stations, and as directed by the ENGINEER of the proposed centerline.

4.5. A SURVEYOR's report, outlining the approach, reasons or basis for the existing right-of-way determination, and conclusions made.

4.6. Records used to establish ownership.

4.7. ROW and parcel filed notes signed and sealed by a RPLS.

4.8. Computation sheets of survey closures, ground surveys, etc. used to develop plats and meets and bound information

4.9. Items indicated under the Automation Requirements Section 6.

4.10. Completed (Attached) Checklist with submittal of ROW Map etc.

5. GENERAL REOUIREMENTS:

For purposes of this Contract, the following general requirements shall apply:

5.1. Copies of instruments of record submitted to the ENGINEER shall be indexed by parcel number.

5.2. Coordinates appearing on right-of-way maps, on parcel plats, and in property descriptions shall be surface coordinates based on the Texas State Plane Coordinate System. The combined adjustment factors (sea level factor x scale factor) which have been developed by the STATE for its use are as follows:

5.2.1 In (List Applicable Counties): Counties grid coordinates are multiplied by a combined adjustment factor to obtain surface coordinates, For work in Counties other than those listed, the ENGINEER will provide the combine adjustment factor.

5.3. Line and curve tables may be used when necessary.

5.4. The number of centerline alignment stations to be shown on a single plan sheet shall be restricted to the extent necessary to allow approximately 4 inches between match lines and sheet borders for future details and notes

5.5. A minimum 4 inch by 4 inch space shall be reserved at the bottom right corner of each map sheet for future revision notes.

6. AUTOMATION REOUIREMENTS:

In addition to standard hard copy plots and mylar copies, the following will be required electronically:

6.1. Right-of-way maps and parcel plats shall be prepared using a Micro Station software graphics system capable of producing graphics files that can be plotted and viewed without further modification or conversion using the State's Micro Station V8 graphics system.

6.2. It is the intent of the ENGINEER to secure graphics files which have elements of equal integrity, singularity, and attributes as elements prepared using the State's Micro Station V8 graphics system.

6.3. For purposes of clarity, consistency, and ease of utilization, the SURVEYOR shall request and secure standards relevant to right-of-way mapping to the extent necessary to ensure that the needs of the ENGINEER are met. This includes, but may not be limited to, TxDOT seed file and corresponding units.def file, TOOT font resource file, TOOT GEOPAK SMD file, TOOT DGNLIB, associated cell libraries and custom line styles, and other files as deemed appropriate for the project.

6.4. Graphics files furnished 10 the ENGINEER by the SURVEYOR shall be submitted on a Compact Disk CD, DVD or USB, in a forrnat compatible with the STATE's computer system. The SURVEYOR shall confer with the ENGINEER regarding acceptable media and formats before making submissions. The SURVEYOR shall request and secure a Consultant File Index form provided by the ENGINEER, to be completed by the SURVEYOR, and to be submitted to the ENGINEER along with the graphics files.

6.5. Property descriptions shall be prepared using a computer word processing system capable of producing data files readable using Microsoft Office Word Version 2007 word processing software.

6.6. Data files furnished to the ENGINEER by the SURVEYOR shall be submitted in ACSII format on a CD, DVD or USB.

6.7. Provide to the ENGINEER electronic copies of all instruments of record acquired pursuant to a work authorization.

7. GENERAL SPECIFICATIONS:

For purposes of this Contract, the following general specifications for right-of-way mapping shall apply:

7.1. Completed right-of-way maps shall be submitted to the ENGINEER on single or double matte mylar, 22 inches by 34 inches in size with a 21 inch by 32 inch printed border positioned h inch from the top, bottom, and right edge of the sheet. Two copies on ll inch by 17 inch paper will also be supplied to the ENGINEER.

7.2. Parcel plats shall be submitted to the ENGINEER on 8 1/2 inch by I I inch bond paper with respective borders of 7 h inches by 10 inches, positioned h inch from the top, bottom, and right edge of the sheet. Match lines shall be used where more than one sheet is required.

7.3. Right-of-way maps shall be drawn to a scale of I inch — 50 feet. An appropriate scale other than I inch = 50 feet may be used on some proposed right-of-way projects upon prior approval by the ENGINEER.

7.4. Since right-of-way maps are reduced in size by one-half for archiving purposes, the smallest size lettering acceptable on a right-of-way map shall be 1/10 of one inch (Leroy #100). A right-of-way map which contains any lettering smaller than 1/10 of one inch will not be accepted by the ENGINEER.

7.5. Parcel plats shall be drawn to a preferred scale of I inch = 50 feet, An appropriate scale other than I inch 50 feet may be used on some proposed right-of-way projects upon prior approval by the ENGINEER. In the case of a very large parcel which would be difficult to show with clarity on a single 8 h inch by I l inch sheet, the SURVEYOR shall use multiple 8 h inch by I I inch sheets with matching lines.

7.6. The smallest size lettering acceptable on a parcel plat shall be 0.06 of an inch (Leroy #60).

7.7. Property descriptions shall be submitted on 8 h inch by I I inch bond paper.

7.8. The ENGINEER has encountered a number of mylar products which are considered unacceptable. The SURVEYOR shall confer with the ENGINEER regarding mylar products he intends to use which have not been previously used on State projects.

7.9. Zip-A-Tone or other similar stick-on products shall not be used on right-of* way maps or parcel plats.

8. ADHERENCE TO STANDARDS:

For purposes of clarity, consistency, and ease of understanding, the CITY/COUNTY, as an acquiring agency of private property for public use, has adopted the STATE standards and formats for right-of-way mapping which have proven to facilitate the processes of negotiation, appraisal, relocation assistance, and condemnation. It shall be the responsibility of the SURVEYOR to adhere to these standards and formats to every extent possible to ensure that the needs of the acquiring agency are met.

FUNCTION CODE 160 (150) – DESIGN

160.1 Design Surveys

Design Surveys and Construction Surveys include performance of surveys associated with the gathering of survey data for topography, cross-sections, and other related work in order to design a project, or during layout and staking of projects for construction.

A. PURPOSE

The purpose of a design survey is to provide field data in support of transportation systems design.

B. DEFINITIONS

A design survey is defined as the combined performance of research, field work, analysis, computation, and documentation necessary to provide detailed topographic (3-dimensional) mapping of a project site. A design survey may include, but need not be limited to locating existing right-of-way, cross-sections or data to create cross-sections and Digital Terrain Models (DTM), horizontal and vertical location of utilities and improvements, detailing of bridges and other structures, review of right-of-way maps, establishing control points, etc.

C. TASKS TO BE COMPLETED

1. Design Surveys

The Engineer's Surveyor shall complete tasks including, but not limited to the following:

a. Obtain or collect data to create cross-sections and digital terrain models.

b. Locate/verify major existing utilities.

c. Locate topographical features and existing improvements.

d. Provide details of existing drainage features, (e.g., culverts, manholes, etc.).

e. Establish existing control points. Horizontal and Vertical control ties must be made and tabulated, to other control points in the vicinity, which were established by other sources such as, the National Geodetic Survey (NGS), and the Federal Emergency Management Agency (FEMA), and any other local entities as directed by the State.

f. Perform hydrographic surveys.

g. Update existing control data and prepare survey control data sheets, as directed by the State for inclusion into a construction plan set.

The Engineer's Surveyors shall also prepare a Survey Control Index Sheet and a Horizontal and Vertical Control Sheet(s), signed, sealed and dated by the professional engineer in direct responsible charge of the surveying and the responsible RPLS for insertion into the plan set. The Survey Control Index Sheet shows an overall view of the project control and the relationship or primary monumentation and control used in the preparation of the project; whereas, the Horizontal and Vertical Control sheet(s) identifies the primary survey control and the survey control monumentation used in the preparation of the project. Both the Survey Control Index Sheet and the Horizontal and Vertical Control Sheet(s) must be used in conjunction with each other as a set. The State's forms for these sheets can be downloaded from the State's website.

The following information shall be shown on the Survey Control Index Sheet:

a. Overall view of the project and primary control monuments set for control of the project

b. Identification of the control points

c. Baseline or centerline

d. Graphic (Bar) Scale

e. North Arrow

f. Placement of note “The survey control information has been accepted and incorporated into this PS&E” which shall be signed, sealed and dated by a Texas Professional Engineer

g. RPLS signature, seal, and date

h. The State’s title block containing District Name, County, Highway, and CSJ

The following information shall be shown on all Horizontal and Vertical Control Sheets:

a. Location for each control point, showing baseline or centerline alignment and North arrow.

b. Station and offset (with respect to the baseline or centerline alignments) of each identified control point.

c. Basis of Datum for horizontal control (base control monument/benchmark name, number, datum).

d. Basis of Datum for the vertical control (base control monument, benchmark name, number, datum).

e. Date of current adjustment of the datum.

f. Monumentation set for Control (Description, District name/number and Location ties).

g. Surface Adjustment Factor and unit of measurement.

h. Coordinates (State Plan Coordinates [SPC] Zone and surface or grid).

i. Relevant metadata.

j. Graphic (Bar) Scale.

k. Placement of note “The survey control information has been accepted and incorporated into this PS&E” which shall be signed, sealed and dated by a Texas Professional Engineer.

l. RPLS signature, seal and date.

m. The State's title block containing District Name, County, Highway, and CSJ.

D. TECHNICAL REQUIREMENTS

1. Design surveys must be performed under the supervision of a RPLS currently registered with the TBPLS.

2. Horizontal ground control used for design surveys furnished to the Engineer's Surveyor by the City or based on acceptable methods conducted by the Engineer's Surveyor, must meet the standards of accuracy required by the State.

Reference may be made to standards of accuracy for horizontal control traverses, as described in the TxDOT Survey Manual, latest edition, or the TSPS Manual of Practice for Land Surveying in the State of Texas, as may be applicable.

3. Vertical ground control used for design surveys furnished to the Engineer's Surveyor by the City or based on acceptable methods conducted by the Engineer's Surveyor, must meet the standards of accuracy required by the State.

Reference may be made to standards of accuracy for vertical control traverses, as described in the TxDOT Survey Manual, latest edition, or the TSPS Manual of Practice for Land Surveying in the State of Texas, as may be applicable.

4. Side shots or short traverse procedures used to determine horizontal and vertical locations must meet the following criteria:

a. Side shots or short traverses must begin and end on horizontal and vertical ground control as described above.

b. Standards, procedures, and equipment (may be GPS Equipment, LiDAR, Total Stations, etc.) used must be such that horizontal locations relative to the control may be reported within the following limits:

(1) Bridges and other roadway structures: less than 0.1 of one foot.

(2) Utilities and improvements: less than 0.2 of one foot.

(3) Cross-sections and profiles: less than 1 foot.

(4) Bore holes: less than 3 feet.

c. Standards, procedures, and equipment (may be GPS Equipment, LiDAR, Total Stations, etc.) used must be such that vertical locations relative to the control may be reported within the following limits:

(1) Bridges and other roadway structures: less than 0.02 of one foot.

(2) Utilities and improvements: less than 0.1 of one foot.

(3) Cross-sections and profiles: less than 0.2 of one foot.

(4) Bore holes: less than 0.5 of one foot.

E. AUTOMATION REQUIREMENTS

1. Planimetric design files (DGN) must be fully compatible with the State's MicroStation V8i graphics program without further modification or conversion.

2. Electronically collected and processed field survey data files must be fully compatible with the State's computer systems without further modification or conversion. All files must incorporate only those feature codes currently being used by the State.

3. DTM must be fully compatible with Bentley's OpenRoads system without further modification or conversion. All DTM must be fully edited and rectified to provide a complete digital terrain model with all necessary break lines.

F. DELIVERABLES

The deliverables to be specified in individual work authorizations for design surveys shall be any combination of the following:

1. Digital Terrain Models (DTM) and the Triangular Irregular Network (TIN) files in a format acceptable by the State.

2. Maps, plans, or sketches prepared by the Engineer's Surveyor showing the results of field surveys.

3. Computer printouts or other tabulations summarizing the results of field surveys.

4. Digital files or media acceptable by the State containing field survey data (ASCII Data files).

5. Maps, plats, plans, sketches, or other documents acquired from utility companies, private corporations, or other public agencies, the contents of which are relevant to the survey.

6. Field survey notes, as electronic and hard copies.

7. An 8 ½ inch by 11 inch survey control data sheet for each control point which must include, but need not be limited to, a location sketch, a physical description of the point including a minimum of two reference ties, surface coordinates, a surface adjustment factor, elevation, and the horizontal and vertical datums used.

A pre-formatted survey control data sheet form in Microsoft Office Word 2010 format will be provided by the State.

8. A digital and hard copy of all computer printouts of horizontal and vertical conventional traverses, GPS analysis and results, and survey control data sheets.

9. All GEOPAK GPK files.

10. Survey reports in a format requested by the State.

160.2 Aerial Mapping

Aerial Mapping involves the collection and reduction of aerial survey data, and preparation of site maps and topographic maps.

A. PURPOSE
The purpose of aerial mapping is to provide planimetric digital mapping (DGN) and DTM in support of roadway design.

B. DEFINITIONS
For purposes of this Contract, the following definitions shall apply:

1. Aerial Photograph – A vertical photograph taken from an aircraft at an altitude above mean terrain elevation to produce a photo scale of 1:3,000.

2. Analytical triangulation – The process of expanding a skeletal network of ground control points to provide the dense control network to reference each individual photogrammetric stereo model to the actual ground.

3. Ground control – Ground control targets sufficient in number and geospatial distribution to allow analytical triangulation and mapping to meet American Society for Photogrammetry and Remote Sensing (ASPRS) Class standard for 1” = 40’ scale map accuracy with a one foot contour interval.

4. Airborne GPS/IMU – An airborne GPS receiver on-board the aircraft recording GPS data to be included in the analytical triangulation with the purpose of reducing the number of ground control points required for an aerial mapping task. Inertial Measurement Unit (IMU) data to supplement the analytical triangulation is optional and its use is at the discretion of the Certified Photogrammetrist.

5. DGN – A two or three dimensional graphics file produced by MicroStation V8i using Bentley’s OpenRoads tools. These files may contain features and improvements plotted in a horizontal plane along the N and E axes which correspond to Texas State Plane Coordinates. These files may contain 2D or 3D elements representing topographic, existing, proposed, schematic, and general layout features.

6. Digital terrain Model (DTM) – A three dimensional digital model of the ground

containing those features necessary to define surface relief. A three dimensional model does not normally contain those planimetric features not necessary to define relief.

7. Flight Map – A map depicting the flight line layout over the project area.

8. Horizontal and Vertical Ground Control – Survey control points for which the N and E coordinate and elevation have been determined by on-the-ground surveys.

9. Low Altitude Photography – Aerial photography with a film photo scale of 1:3000 or a digital image with a ground pixel size of 5 cm or less.

10. Medium Altitude Photography – Aerial photography with a film photo scale of 1:12,000 or a digital image with ground pixel size of 20 cm.

11. Planimetric Map – A two-dimensional map containing natural ground features and improvements plotted in a horizontal plane along the N and E axes. A planimetric map does not include relief elements such as spot elevations, cross-sections, or contours.

12. Project Photo Length The distance over which photographs are required to be taken.

C. TASKS TO BE COMPLETED

1. Aerial Photography, manual survey or a combination of both.

2. DGN, DTM and TIN Files

The Engineer's Surveyor shall prepare DGN, DTM and TIN files covering the specific work location, meeting standards and specifications as required.

a. Horizontal Ground Control Accuracy Standards

The Engineer's Surveyor shall provide horizontal ground control that meets standards of accuracy required by the State and as described in the TxDOT Survey Manual, latest edition, or the TSPS Manual of Practice for Land Surveying in the State of Texas, as may be applicable.

b. Vertical Ground Control Accuracy Standards

The Engineer's Surveyor shall provide vertical ground control that meets standards of accuracy required by the State and as described in the TxDOT Survey Manual, latest edition, or the TSPS Manual of Practice for Land Surveying in the State of Texas, as may be applicable.

c. Map Accuracy Standard

Aerial mapping must meet or exceed the requirements for ASPRS Class 1 standard for 1" = 40' scale mapping with a one foot contour interval.

Field verification of adherence to the required accuracy specification is at the discretion of the State.

d. Statement of Map Accuracy

For maps that are not field checked but have been compiled to meet the State's accuracy standard, the Engineer's Surveyor shall include the following statement along with the Photogrammetrist's seal on the delivered hard copy and digital versions of the map:

"This map was compiled to meet the ASPRS Standard for Class 1 map accuracy." If the map was checked and found to conform to this spatial accuracy standard, the statement above and the following statement must also be included on the delivered hard copy and digital versions of the map, and in the field check summary:

"This map was checked and found to conform to the ASPRS Standard for Class 1 map accuracy."

e. DGN File Specifications

(1) Files must be fully compatible with the State's MicroStation graphics system without further modification or conversion.

(2) File features and level structure must be in compliance with the State's current Photogrammetry Mapping Legend.

(3) Files must be capable of plotting maps to a 1 inch = 40 feet scale with the smallest text size being one tenth of one inch (1/10").

f. DTM and TIN Files Specifications

(1) Files must be fully compatible with Bentley's OpenRoads graphics system without further modification or conversion.

(2) The State's current Level Library Files for Photogrammetry mapping will be provided by the State.

(3) File features and level structure must be in compliance with the State's current Photogrammetry Mapping Legend.

(4) Files must be capable of plotting maps to a 1 inch = 50 feet scale with the smallest text size being one tenth of one inch (1/10").

g. Deliverables

The Engineer's Surveyor shall provide:

(1) DGN, DTM and TIN files on a medium and in a format acceptable to the State, delivered on CD, DVD, flash-drive, or hard-drive.

(2) Orthophotography (created using the DTM) delivered on CD, DVD, flash-drive, or hard-drive in tiff format (3 banded) with world files. If digital, depending on intended use, deliverable formats must include:

i. Raw tiff image – rectified – 4 Band Tiff (for archive only).

ii. Color photography – rectified – 3 Band Tiff and Mr. Sid.

iii. Infrared Photography – rectified – 3 Band Tiff and Mr. Sid.

(3) The State's Photogrammetry Mapping Legend and supplements

160.3 Geotechnical Borings and Investigations

A. The Engineer shall determine the location of proposed soil borings for embankment settlement analysis, with the latest edition of the State's Geotechnical Manual. The State will review and provide comments for a boring layout submitted by the Engineer showing the general location and depths of the proposed borings. Once the Engineer receives the State's review comments they shall perform soil borings (field work), soil testing and prepare the boring logs in accordance with the latest edition of the State's Geotechnical Manual and State District's procedures and design guidelines.

B. All geotechnical work should be performed in accordance with the latest version of the State's Geotechnical Manual. All testing shall be performed in accordance with the latest version of the State's Manual of Test Procedures. American Society for Testing Materials (ASTM) test procedures can be used only in the absence of the State's procedures. All soil classification should be done in accordance with the Unified Soil Classification System.

C. If applicable, the Engineer shall perform soil borings, groundwater readings, testing and analysis to include settlement analysis, and foundation design recommendations along, bridges, embankments and any temporary soil retaining systems.

D. The Engineer shall provide a signed, sealed and dated geotechnical report which contains, but is not limited to, soil boring locations, boring logs, laboratory test results, generalized subsurface conditions, ground water conditions, analyses and recommendations for settlement of the earthen embankments, skin friction tables and design capacity curves including skin friction and point bearing. The skin friction tables and design capacity curves must be present for piling and drilled shaft foundation.

E. The Engineer shall sign, seal and date soil boring sheets to be used in the PS&E package. The preparation of soil boring sheets must be in accordance with a State's District standards.

F. The Engineer shall incorporate soil boring data sheets prepared, signed, sealed, and dated by the Geotechnical Engineer. The soil boring sheets shall be in accordance with the State's WINCORE software as can be found on the Texas Department of Transportation (TxDOT) website.

Deliverables:

1. Geotechnical Report
2. DGN flies containing drilling log data from Geotechnical analysis

FUNCTION CODE 160 (161) – DRAINAGE DESIGN

161.1. Plans, Specifications and Estimates (PS&E) Development for Hydraulics.

The Engineer shall provide the following services:

1. Prepare the PS&E package in accordance with the applicable requirements of the State's specifications, standards, and manuals, including the PS&E Preparation Manual. Include the following sheets and documents, as appropriate:

    i. Hydrologic Data Sheets
    ii. Hydraulic Data Sheets
    iii. Culvert Layout Sheets
    iv. Detention Pond Layouts
    v. Detention Pond Details
    vi. Profile grade line of streams
    vii. All other relevant sheets

2. Prepare drainage area maps.

3. Prepare drainage facility quantity summaries.

4. Identify potential utility conflicts and, if feasible, design to mitigate or avoid those identified conflicts.

5. Prepare Hydraulic Data Sheets for any cross drainage structures at the outfall channel and indicate site location (e.g., station and name of creek or bayou), if applicable.

6. Develop a 3D model of the proposed drainage structures using the SUE or SUEDA capabilities of the Bentley Civil Product, if requested by the State.

7. Develop layouts for the following:

    i. Outfall Channels within existing ROW
    ii. Detention ponds, associated outlet structures, and details, if applicable. If information is not available at the time of initial scoping, this work shall be considered as additional work.

FUNCTION CODE 160(163) - ROADWAY DESIGN

MISCELLANEOUS (ROADWAY)

The Engineer shall provide the following services:

163.1. Traffic Control Plan, Detours, Sequence of Construction.

The Engineer shall prepare Traffic Control Plans (TCP) including TCP typical sections, for the project. The Engineer shall complete Form 2229-Significant Project Procedures along with Page 4 of Form 1002, specifically titled Accelerated Construction Procedures. A detailed TCP must be developed in accordance with the latest edition of the TMUTCD. The Engineer shall implement the current Barricade and Construction (BC) standards and TCP standards as applicable. The Engineer shall interface and coordinate phases of work, including the TCP, with adjacent Engineers. The Engineer shall:

1. Provide a written narrative of the construction sequencing and work activities per phase and determine the existing and proposed traffic control devices (regulatory signs, warning signs, guide signs, route markers, construction pavement markings, barricades, flag personnel, temporary traffic signals, etc.) to be used to handle traffic during each construction sequence. The Engineer shall show proposed traffic control devices at grade intersections during each construction phase (stop signs, flagperson, signals, etc.). The Engineer shall show temporary roadways, ramps, structures and detours required to maintain lane continuity throughout the construction phasing. If temporary shoring is required, prepare layouts and show the limits on the applicable TCP.

2. Develop each TCP to provide continuous, safe access to each adjacent property during all phases of construction and to preserve existing access. The Engineer shall notify the State in the event existing access must be eliminated, and must receive approval from the State prior to any elimination of existing access.

3. Design temporary drainage to replace existing drainage disturbed by construction activities or to drain detour pavement. The Engineer shall show horizontal and vertical location of culverts and required cross sectional area of culverts.

4. Prepare each TCP in coordination with the City. The TCP must include interim signing for every phase of construction. Interim signing must include regulatory, warning, construction, route, and guide signs. The Engineer shall interface and coordinate phases of work, including the TCP, with adjacent Engineers, which are responsible for the preparation of the PS&E for adjacent projects.

5. Describe the type of work to be performed for each phase of sequence of construction and any special instructions (e.g. storm drain, culverts, bridges, railing, illumination, signals, retaining walls, signing, paving surface sequencing or concrete placement, ROW restrictions, utilities, etc.) that the contractor should be made aware to include limits of construction, obliteration, and shifting or detouring of traffic prior to the proceeding phase.

6. Include the work limits, the location of channelizing devices, positive barrier markings, and other information deemed necessary for each phase of construction.

16.3.3. Storm Water Pollution Prevention Plans (SW3P).

The Engineer shall develop SW3P, on separate sheets from (but in conformance with) the TCP, to minimize potential impact to receiving waterways. The SW3P must include text describing the plan, quantities, type, phase and locations of erosion control devices and any required permanent erosion control.

163.4. Compute and Tabulate Quantities.

The Engineer shall provide the summaries and quantities within all formal submittals.

163.5. Estimate.

The Engineer shall independently develop and report quantities necessary to construct the contract in standard State bid format at the specified milestones and Final PS&E submittals. The Engineer shall prepare each construction cost estimates using Estimator or any approved method.

163.6. Contract time determination.

The Engineer shall prepare a detailed contract time estimate to determine the approximate time required for construction of the project in calendar and working days at the 95% and Final PS&E milestone. The schedule must include tasks, subtasks, critical dates, milestones, deliverables, and review requirements in a format which depicts the interdependence of the various items and adjacent construction packages. The Engineer shall provide assistance to the City in interpreting the schedule.

163.7. Specifications and General Notes.

The Engineer shall identify necessary standard specifications, special specifications, special provisions and the appropriate reference items.

163.8. Constructability Review.

The Engineer shall provide Independent Quality Review of the constructability of the PS&E sets.

The Engineer shall perform constructability reviews at major project design milestones (e.g. 30%, 60%, 90%, and final plan) to identify potential constructability issues and options that would provide substantial time savings during construction.

FUNCTION CODE 309(309) – DESIGN VERIFICATIONS/CHANGES/ALTERATIONS

CONSTRUCTION PHASE SERVICES

The Engineer shall provide Construction Phase Services. These services shall include, but are not limited to the following:

1. Attend preconstruction meeting
2. Attend partnering meeting

3. Attend field meetings and make visits to site
4. Review and approval of shop drawings
5. Responding to requests for information (RFIs)
6. Providing minor redesign (major redesign should be handled with a contract supplement), which will include changes to the affected plan sheets and an updated copy of the 3D model (if applicable).
7. Answering general questions
8. Providing clarification
9. Other project related tasks in support of the State during construction

Deliverables

Plans

The Engineer shall provide the following information at each submittal:

1. 30% Plans Submittal

    1.1. Four sets of 11" x 17" plan sheets for the State District Review.

    1.2. Estimate of construction cost.

    1.3. Engineer's internal QA and QC markup set.

    1.4. If applicable, a Preliminary 3D model, in DGN format, created using Bentley's OpenRoads, and/or 3D MicroStation\Civil tools, and with detail to verify the design of the 30% plan sheets.

2. Between 30% Submittal and 60% Submittal:

    2.1. Engineer's internal QA and QC marked up set.

    2.2. One set of a roll format TCP phasing layouts, one .pdf of plan sheets for TCP concept.

3. 60% Plans Submittal:

    3.1. Four sets of 11" x 17" plan sets for the City/TWDB review.

    3.2. Estimate of construction cost.

    3.3. Engineer's internal QA and QC marked up set.

    3.4. One set of a roll format TCP phasing layouts, one .pdf of plan sheets for TCP concept.

    3.5. If applicable, a preliminary 3D model, in DGN format, created using Bentley's OpenRoads, and/or 3D MicroStation\Civil tools, and with detailto verify the design of the 60% plan sheets. The level of detail of the surface and subsurface features

will be at the direction of the City.

4. Review Submittal (90%)

    4.1. Four sets of 11" x 17" plan sheets for the State District Review.

    4.2. Estimate of construction cost.

    4.3. Marked up general notes

    4.4. Construction schedule.

    4.5. New Special Specifications and Special Provisions with Form 1814, if applicable.

    4.6. Engineer's internal QA and QC marked up set.

    4.7. Other supporting documents.

    4.8. If applicable, a detailed 3D model, in DGN format, created using Bentley's OpenRoads, and/or 3D MicroStation\Civil tools, and with detail to verify the design of the 90% plan sheets. The level of detail of the surface and subsurface features will be at the direction of the City.

5. Final submittal (100%).

    5.1. Six paper sets of 11" x 17"

    5.2. Revised supporting documents from 95% review comments.

    5.3. If applicable, a final 3D model, in DGN format, LandXML format and other format (as directed by the State) created using Bentley's OpenRoads, and/or 3D MicroStation\Civil tools. The level of detail of the surface andsubsurface features will be at the direction of the City.

Electronic Copies

The Engineer shall furnish the State with a CD or DVD of the final plans in the format of current CADD system used by the State, .pdf format, and in the City's File Management System (FMS) format.

The Engineer shall also provide separate CD or DVD containing cross section information (in dgn, XLR, & ASCII formats) for the State contractor to use.

The Engineer shall provide an electronic copy of Primavera file, or the latest scheduling program used by the State for construction time estimate.

With the approval of the City, and in lieu of the above, the Engineer may maintain the project files in the State's ProjectWise container. The handoff of the electronic files will be via email to the State, with a URN link to the project location in ProjectWise provided in the email.

Calculations

The Engineer shall provide the following:

1. A 3-ring binder with all quantity and non-structural design calculations.

2. A bound copy of all engineering calculations, analysis, input calculations, quantities, geometric designs (GEOPAK GPK files), etc. relating to the project's structural elements.

3. Working copies of all spreadsheets and output from any programs utilized on a CD or DVD in a universally reliable format.

The Engineer may provide the calculations in .pdf format in lieu of the bound hardcopies. The .pdf file should be submitted on a CD, DVD, or in ProjectWise (if applicable).

Contract with City of Socorro for Sparks Arroyo

WA No. 3 - Schematic, Environmental Studies and PS&E

Length: Approx 2.6 miles

Prime: Camacho-Hernandez & Associates, LLC

Preliminary Engineering Design Services - Schematic, Environmental & PS&E	Principal	Project Manager	Quality Manager	Project Engineer	3D Visualization Manager	3D Visualization Modeler	Senior Engineer Technician	EIT	Senior CADD Operator	Admin/ Clerical	Total Hours	Total Cost
Project Management											589	**$ 82,179.60**
1. Project Management/Work Plan											11	**$ 2,316.18**
1.1 Develop a project management/work plan	2	2	2	5							11	$ 2,316.18
2. Progress Reporting											28	**$ 4,997.00**
2.1 Prepare and submit monthly progress reports for the City of Socorro	2	4	2								8	$ 1,857.86
2.2 Updated project schedule	2	2		8				8			20	$ 3,139.14
3. Prepare and Submit Invoices											36	**$ 5,440.52**
3.1 Monthly invoice amount	2	4	2							10	18	$ 2,720.26
3.2 Review subconsultant invoices	2	4	2							10	18	$ 2,720.26
4. Coordination/Administration											206	**$ 29,469.54**
4.1 Prepare and attend One (1) Kick-off meeting	2	2		2			2	2	2	2	14	$ 2,050.06
4.2 Coordination with El Paso County	2	8									10	$ 2,330.96
4.3 Monthly meetings with the City of Socorro staff, public entities and TxDOT (estimated 18)	2	36		36			36	36		36	182	$ 25,088.52
5. Subconsultant Management											308	**$ 39,956.36**
5.1 Prepare subcontracts / WA's / SWA's for subconsultants	4	32	2							56	94	$ 13,552.06
5.2 Monitor subconsultant activities	12	40	2					80	80		214	$ 26,404.30
HOURS SUB-TOTALS	**32**	**134**	**12**	**51**	**0**	**0**	**38**	**126**	**82**	**114**	**589**	
CONTRACT RATE PER HOUR	**$258.72**	**$226.69**	**$216.83**	**$182.34**	**$133.06**	**$128.13**	**$98.56**	**$88.70**	**$83.78**	**$86.24**		
TOTAL LABOR COSTS	**$8,279.04**	**$30,376.46**	**$2,601.96**	**$9,299.34**	**$0.00**	**$0.00**	**$3,745.28**	**$11,176.20**	**$6,869.96**	**$9,831.36**	**$82,179.60**	
% DISTRIBUTION OF STAFF HOURS	**5.43%**	**22.75%**	**2.04%**	**8.66%**	**0.00%**	**0.00%**	**6.45%**	**21.39%**	**13.92%**	**19.35%**	**100.00%**	
Public Involvement Activities											281	**$ 36,831.83**
1. Public Involvement Program											281	**$ 36,831.83**
1.1 Prepare and maintain Federal and TXDOT Legislative District maps including Legislator contact information	2	2		8			18	18			48	$ 5,800.22
1.2 Provide responses of public comments per meeting/hearing submitted	2			1				2			5	$ 877.18
1.3 Public meetings												
1.3.1 Schedule, conduct and attend public meetings (assume 1 meeting).	3	3		3			3	3		3	18	$ 2,823.75
1.3.2. Prepare public meeting materials including sign-in sheets, flyers, meeting notices, meeting posters, exhibits, comment form, agenda, welcome letter, display ad, legal notice, press release, posters, script, presentation, press kits, and other meeting materials							32	32		32	96	$ 8,752.00
1.3.3 Document the comments received and prepare responses		4		4				2		4	14	$ 2,158.48
1.3.4 Prepare draft and final Public Meeting Summary Report		4									4	$ 906.76
1.4 Public hearing												
1.4.1 Schedule, conduct and attend public hearing (assume 1 hearing)	8	8		8			8	8		8	48	$ 7,530.00
1.4.2 Coordinate preparation and review of public hearing materials (2 reviews)		4		4			4	4		4	20	$ 2,730.12
1.4.3 Prepare draft and final Public Hearing Summary Report		4								4	8	$ 1,251.72
1.5 Review Categorical Exclusion submitted by subconsultant		8		12							20	$ 4,001.60
HOURS SUB-TOTALS	**15**	**37**	**0**	**40**	**0**	**0**	**65**	**69**	**0**	**55**	**281**	
CONTRACT RATE PER HOUR	**$258.72**	**$226.69**	**$216.83**	**$182.34**	**$133.06**	**$128.13**	**$98.56**	**$88.70**	**$83.78**	**$86.24**		
TOTAL LABOR COSTS	**$3,880.80**	**$8,387.53**	**$0.00**	**$7,293.60**	**$0.00**	**$0.00**	**$6,406.40**	**$6,120.30**	**$0.00**	**$4,743.20**	**$36,831.83**	
% DISTRIBUTION OF STAFF HOURS	**5.34%**	**13.17%**	**0.00%**	**14.23%**	**0.00%**	**0.00%**	**23.13%**	**24.56%**	**0.00%**	**19.57%**	**100.00%**	
Planning											1592	**$ 176,526.06**
1. Design Criteria											284	**$ 30,139.80**
2.1 Submit design criteria for approval by the City of Socorro/TxDOT	2	6		16				50	50		124	$ 13,419.02
2.2 Review/revise geometric schematic	2	6		16			16	60	60		160	$ 16,720.78
3. Complete Arroyo Design efforts required											622	**$ 68,341.58**
3.1 Review adequacy of existing drainage structures	2	6		16			20	40	40		124	$ 13,665.42
3.2 Review and update horizontal geometric alignments of streams	2	6		16			20	70	32		146	$ 15,656.18
3.3 Review and update vertical geometric designs for all sterams	2	6		16			20	70	32		146	$ 15,656.18
3.4 Prepare and submit construction sequencing plan narrative	1	6		16			20	30	40		113	$ 12,519.70
3.5 Review and update typical ditch cross sections	1	6		16			20	30	20		93	$ 10,844.10
4. Develop Design Schematic											506	**$ 54,799.16**
4.1 Typical sections of all improvements including Stockyard Detention Pond	1	6		16			40	50	20		133	$ 14,589.30
4.3 Preliminary modeling of Arroyo based on TNRIS data	1	6		16		40		50	20		133	$ 15,772.10
4.8 Existing and proposed drainage structures, offsite ponding areas	1	6		2			40	50	20		119	$ 12,036.54
4.9 Preliminary traffic control and sequence of construction plan	1	6		4			40	50	20		121	$ 12,401.22
5. Other Items to support the engineering design effort											180	**$ 23,245.52**
5.1 Update construction estimate	2	6	2	6				20	20		56	$ 6,854.88
5.2 Prepare drainage analysis and maps of the existing and proposed drainage systems		6	2	4			40	20	20		92	$ 9,915.16
5.12 Present reports and findings to the City of Socorro, as required	4	6	2	20							32	$ 6,475.48
HOURS SUB-TOTALS	**22**	**84**	**6**	**180**	**0**	**40**	**276**	**590**	**394**	**0**	**1592**	
CONTRACT RATE PER HOUR	**$258.72**	**$226.69**	**$216.83**	**$182.34**	**$133.06**	**$128.13**	**$98.56**	**$88.70**	**$83.78**	**$86.24**		
TOTAL LABOR COSTS	**$5,691.84**	**$19,041.96**	**$1,300.98**	**$32,821.20**	**$0.00**	**$5,125.20**	**$27,202.56**	**$52,333.00**	**$33,009.32**	**$0.00**	**$176,526.06**	
% DISTRIBUTION OF STAFF HOURS	**1.38%**	**5.28%**	**0.38%**	**11.31%**	**0.00%**	**2.51%**	**17.34%**	**37.06%**	**24.75%**	**0.00%**	**100.00%**

Contract with City of Socorro for Sparks Arroyo

WA No. 3 - Schematic, Environmental Studies and PS&E

Length: Approx 2.6 miles

Prime: Camacho-Hernandez & Associates, LLC

Preliminary Engineering Design Services - Schematic, Environmental & PS&E	Principal	Project Manager	Quality Manager	Project Engineer	3D Visualization Manager	3D Visualization Modeler	Senior Engineer Technician	EIT	Senior CADD Operator	Admin/ Clerical	Total Hours	Total Cost
Drainage Study											1288	**$ 185,875.60**
1. Perform Drainage Study											552	**$ 76,788.60**
1.1 Review and update drainage requirements for the project	4	32	4	40				40			120	$ 19,997.88
1.2 Review and update location of retention ponding areas for storing runoff from the project	4	32		40			60	40	40		216	$ 28,395.36
1.3 Identify any ROW requirements for locating/constructing new ponding areas and/or drainage appurtenances	4	32		40			60	40	40		216	$ 28,395.36
2. Coordination											192	**$ 40,479.08**
2.1 Coordinate with Texas Water Development Board	8	24		24							56	$ 11,886.48
2.2 Coordination with County of El Paso	8	24		24							56	$ 11,886.48
2.3 Coordination with City of Socorro	12	24	4	40							80	$ 16,706.12
3. Perform Drain analysis using Bentley StormCad. Provide Report, Including:											532	**$ 67,573.04**
3.1 Watershed areas		24		32			60	40	32		188	$ 23,418.00
3.4 Identify pipe size and strength requirements		24		32			60	40			156	$ 20,737.04
3.5 Identify potential utility conflicts and design around them, wherever possible		24		32			60	40	32		188	$ 23,418.00
Deliverables											12	**$ 1,034.88**
1. Three copies of the bound drainage study report										12	12	$ 1,034.88
HOURS SUB-TOTALS	**40**	**240**	**8**	**304**	**0**	**0**	**300**	**240**	**144**	**12**	**1288**	
CONTRACT RATE PER HOUR	**$258.72**	**$226.69**	**$216.83**	**$182.34**	**$133.06**	**$128.13**	**$98.56**	**$88.70**	**$83.78**	**$86.24**		
TOTAL LABOR COSTS	**$10,348.80**	**$54,405.60**	**$1,734.64**	**$55,431.36**	**$0.00**	**$0.00**	**$29,568.00**	**$21,288.00**	**$12,064.32**	**$1,034.88**	**$185,875.60**	
% DISTRIBUTION OF STAFF HOURS	**3.11%**	**18.63%**	**0.62%**	**23.60%**	**0.00%**	**0.00%**	**23.29%**	**18.63%**	**11.18%**	**0.93%**	**100.00%**	
Plans, Specifications and Estimates (PS&E)											5946	**$ 645,217.90**
7. Drainage Design											2103	$ 219,749.82
7.1 Develop detention pond design (Stockyard)				50	2	50	100	100	150		452	$ 47,082.62
7.2 Prepare detention pond details				40	2	24	40	40	80		226	$ 24,827.64
7.3 Develop hydraulic design for culverts	2	8		40	2	24	40	40	80		236	$ 27,158.60
7.4 Prepare culvert details				16	2	12	40	40	80		190	$ 18,913.92
7.5 Update overall drainage area map	1	8		16	2	20	40	40	80		207	$ 22,011.20
7.6 Prepare culvert hydraulic computations				16	2	20	40	40	80		198	$ 19,938.96
7.7 Prepare drainage basin layout sheets				16	2	20	40	40	80		198	$ 19,938.96
7.14 Prepare drainage basin calculation sheets				16	2	20	40	40	80		198	$ 19,938.96
7.16 Prepare miscellaneous drainage details				16	2	20	40	40	80		198	$ 19,938.96
8.Traffic Control											396	$ 44,451.20
8.2 Prepare traffic control drawings, including TCP, general notes and details/standards		8		24			40	40	96		208	$ 21,722.96
8.3 Prepare presentation material for Safety Review meetings, including plan layout and PowerPoint, as necessary		8		32			20	20	40		120	$ 14,744.80
8.4 Compile TCP Details/Standards using available TXDOT Standards				20			16	16	16		68	$ 7,983.44
9. Storm Water Pollution Prevention Plan (SW3P)											675	$ 71,113.84
9.1 Prepare SW3P Narrative	1	8	4	20			32	32	32		129	$ 15,259.64
9.2 Prepare EPIC Sheet				20			32	32	40		124	$ 12,990.32
9.3 Prepare Storm Water Pollution Prevention Plans				20			72	72	74		238	$ 23,329.24
9.4 Develop standard and special specifications.				20			44	44	44		152	$ 15,572.56
9.5 Develop estimated SW3P construction cost				12				20			32	$ 3,962.08
12. Final Assembly of PS&E Package											2134	$ 238,506.24
12.1 Complete final construction plans	8	16	80	36		40	90	90	90		450	$ 59,126.24
12.2 Prepare Title Sheet				8			16	16	32		72	$ 7,135.84
12.3 Prepare Index Of Sheets				8			16	16	32		72	$ 7,135.84
12.4 Prepare Project Layout				8			16	48	48		120	$ 11,314.72
12.5 Prepare Final Existing Typical Sections				8			40	40	80		168	$ 15,651.52
12.6 Prepare Final Proposed Typical Sections				8			40	40	80		168	$ 15,651.52
12.7 Prepare General Notes And Specification Data Sheet			32	24			24	24	48		152	$ 19,830.40
12.8 Prepare E & Q Plan Sheet			32	12			88	88	88		308	$ 32,978.16
12.9 Prepare Summary Sheets			32	12			60	60	120		284	$ 30,415.84
12.10 Develop cost estimate			32	8				60	120		220	$ 23,772.88
12.11 Develop construction schedule			32	8				80			120	$ 15,493.28
14. Submittal											638	$ 71,396.80
14.1 Submit design documents at project milestones (30, 60,90 and 100%)			80	24			170	170	170		614	$ 67,799.36
14.2 Attend prebid conference		4	4	4			4	4		4	24	$ 3,597.44
HOURS SUB-TOTALS	**12**	**60**	**328**	**562**	**18**	**250**	**1240**	**1432**	**2040**	**4**	**5946**	
CONTRACT RATE PER HOUR	**$258.72**	**$226.69**	**$216.83**	**$182.34**	**$133.06**	**$128.13**	**$98.56**	**$88.70**	**$83.78**	**$86.24**		
TOTAL LABOR COSTS	**$3,104.64**	**$13,601.40**	**$71,120.24**	**$102,475.08**	**$2,395.08**	**$32,032.50**	**$122,214.40**	**$127,018.40**	**$170,911.20**	**$344.96**	**$645,217.90**	
% DISTRIBUTION OF STAFF HOURS	**0.20%**	**1.01%**	**5.52%**	**9.45%**	**0.30%**	**4.20%**	**20.85%**	**24.08%**	**34.31%**	**0.07%**	**100.00%**

Prime: Camacho-Hernandez & Associates, LLC

Preliminary Engineering Design Services - Schematic, Environmental & PS&E	Principal	Project Manager	Quality Manager	Project Engineer	3D Visualization Manager	3D Visualization Modeler	Senior Engineer Technician	EIT	Senior CADD Operator	Admin/ Clerical	Total Hours	Total Cost
Utility Coordination											467	**$ 58,852.24**
1. Utility Coordination											467	**$ 58,852.24**
1.1 Develop listing of utility companies with contact information	1	2		6				40			49	$ 5,354.14
1.2 Conduct records research and acquisition of available as-built utility records				6				20			26	$ 2,868.04
1.3 Designate known utilities throughout the ROW				6			16	16			38	$ 4,090.20
1.4 Conduct utility coordination meetings		20		28				24			72	$ 11,768.12
1.5 Provide base map information to all utility companies at each submittal phase				2			30	32			64	$ 6,159.88
1.6 Coordination with utilities to obtain their relocation plans. Prepare and issue minutes for each meeting		10		20			10	20		20	80	$ 10,398.10
1.7 Develop a Utility Conflict Matrix to track utility issues and proposed resolutions				2				32			34	$ 3,203.08
1.8 Review relocation plans and incorporate into Utility Conflict Matrix				12			8	12			32	$ 4,040.96
1.9 Assist the City of Socorro in obtaining clearance letters and provide copies of documentation to the city of Socorro at the Final submittal phase	2	4		8				20			34	$ 4,656.92
1.10 Coordinate with utility companies requesting that relocation of their facilities be part of the project construction	2	8		16				12			38	$ 6,312.80
HOURS SUB-TOTALS	**5**	**44**	**0**	**106**	**0**	**0**	**64**	**228**	**0**	**20**	**467**

I. PROJECT SUMMARY

This Work Authorization is to provide Construction Management, Inspection, and Material Testing Services for the Passmore Rd Shared Use Path Project. The project consists of the installation of an asphalt shared use path along Passmore Rd. from Upper Clint Lateral to Franklin Irrigation Canal, project will include illumination, ADA compliant Ramps, landscaping, pedestrian signage and pavement marking. Project also includes a proposed Pedestrian Bridge at the Franklin Feeder Irrigation Canal and the extension of 48" culvert at the Upper Clint Lateral on south side of Passmore. The project also consists of the extension of existing 48" culvert at the Upper Clint Lateral on the north side of Passmore.

II. SERVICES TO BE PROVIDED BY THE ENGINEER

The ENGINEER shall provide the following Office Administration and Field Construction Management Services for this project:

A. OFFICE CONSTRUCTION ADMINISTRATION SERVICES **(LUMP SUM)**

1. Provide office construction administration services to include consulting with and advising Owner on resolutions of problems due to actual field conditions encountered; and reviewing shop drawings and submittals from Contractor for compliance with design concepts.

2. Provide the following field support services:

   a. Conduct pre-construction conference; develop agenda; list of invitees; mail notices; and provide conference minutes.

   b. Prepare and submit to TxDOT a QA plan for the project.

   c. Make periodic visits to project site at intervals appropriate to various stages of construction to observe the quality of the executed work and report to Owner.

   d. Issue instructions from Owner to Contractor, through the RPR.

   e. Provide construction administration and supervise field staff for the project.

   f. Coordinate with State, County, and City Agencies for construction in their jurisdictions.

   g. Review and approve shop drawings.

h. Resolve design related construction problems.

i. Conduct bi-weekly progress meetings and prepare and distribute meeting minutes.

j. Provide monthly activities report whether invoice is sent or not.

k. Make necessary interpretations and clarifications of Contract Documents.

l. Prepare work directive changes (WDC) within 2 working days of change occurrence. Ensure issuance of approved WDC within 5 working days. WDCs shall include Estimate of Probable Cost, the probable impact to time (or lack thereof), and requires the signature of the Owner's Project Administration Manager. Construction Manager shall subsequently negotiate the cost of each Work Directive Change and incorporate such changes to a proposed Change Order, with appropriate documentation attached, for Owner's written acceptance. Construction Manager is not authorized to commit to a final price or time extension without the written acceptance of the Owner in the form of a Change Order. A cost-price analysis shall be submitted with the proposed Change Order. When outside funding agencies are involved, they review and approve change orders for the following: Eligibility of funding; cost-price analysis; compliance with state design criteria; and environmental determination. *Additionally, cumulative changes exceeding 2% of original bid price, or which constitute a departure from the original scope of work, require Council approval.*

m. Review and provide decisions as to suitability of work to RPR.

n. Approve amounts of progress payments due to Contractor based on completion of work and recommend issuance of such payments by the Owner. Transmit with Contractor's and Subcontractor's payrolls to Owner.

o. Assist the Town with the preparation of construction documents that are required for compliance with federal funding.

p. Witness testing of facilities.

q. Provide substantial completion inspection walk-through of the project with Contractor.

r. Issue Certificate of Substantial Completion timely. Include punch list items and all other closeout requirements. Submit to Owner for signature. Contractor's Retainage shall not be reduced below 5% without the written consent of the Owner. When outside funding agencies are involved, their approval of this reduction is required.

s. Perform final inspection of project, recommend acceptance; and provide Certificate of Final Completion, along with a complete closeout package, and submit to Owner's Contracts office timely. An evaluation of Contractor's performance on the project shall be submitted as part of the closeout

package. Using Contractor redlines, RPR daily logs, etc., as part of final closeout package, provide Owner with a mylar set of record drawings (3 mil) and CADD files.

t. Conduct a warranty inspection of the project within 30 days before end of one year from the date of Substantial Completion and submit a written report to the Owner. Outside funding agencies may require a Certification of Project Performance.

u. Using Contractor redlines, RPR daily logs, etc., review record drawing prepared by Design Engineer for accuracy to include in closeout documents.

B. FIELD ENGINEERING AND INSPECTION SERVICES **(HOURLY)**

Provide a Resident Project Representative (RPR) to perform work in accordance with Suggested Listing of Duties, Responsibilities and Limitations of Authority of Resident Project Representative prepared by Engineer's Joint Contract Documents Committee, and superseded in amended form below:

a. Review and approve the progress schedule updates and the schedule of Shop Drawing submittals prepared by Contractor. Consult with Construction Manager concerning acceptability.

b. Attend meetings with Contractor, such as progress meetings, job conferences and other project-related meetings, and prepare and circulate copies of minutes thereof.

c. Serve as the liaison with Contractor, working principally through Contractor's superintendent. Report to Construction Manager when clarifications and interpretations of the Contract Documents are needed and transmit to Contractor clarifications and interpretations as issued by Construction Manager.

d. Serve as Owner's liaison with Contractor when Contractor's operation affects Owner's on-site operations. Obtain from Owner additional details or information when required for proper execution of the work.

e. Record date of receipt of Shop Drawing and samples of materials. Submit to Office Construction Manager.

f. Accompany Contractor to videotape the project corridor before start of construction and after completion to document pre- and post-project conditions.

g. Advise Contractor he may not commence any Work requiring a Shop Drawing or sample if the submittal has not been approved.

h. Conduct on-site observations of the Work in progress. Advise the Construction

Manager if the Work is, in general, proceeding in accordance with the Contract Documents.

i. Notify the Construction Manager whenever Work is believed to be unsatisfactory, faulty, defective, not in conformance with the Contract Documents, damaged, or not meeting the requirements of any inspection, test or approval required to be made; and advise the Contractor of Work that Construction Manager believes should be corrected or rejected or should be uncovered for observation, or requires special testing, inspection, or approval.

j. Verify that test, equipment and systems start-ups and operating and maintenance training are conducted in the presence of appropriate personnel, and the Contractor maintains adequate records thereof; and observe, record and report to the Construction Manager appropriate details relative to the test procedures and start-ups.

k. Schedule field compliance tests and retests, confirm that these tests are conducted in the presence of the appropriate personnel; observe, record and report the appropriate test results. Maintain records of failed tests.

l. Accompany visiting inspectors representing public or other agencies having jurisdiction over the Project, and record the results of these inspections and report to Construction Manager.

m. Ensure Wage Rates are posted on site. Ensure all payrolls from prime and subcontractors are submitted with each monthly pay request as a condition precedent to approval and perform quality assurance reviews, as well as periodic interviews of various contractor employees on site. QA consists of performance of a representative number of checks of each prime and subcontractor payroll against the wage scale. Highlight the employee rates checked before turning over reports with payrolls each month. Ensure NPDES Permit and SW3P is posted at site and followed by Contractor. Ensure Notice of Termination is included with the close-out package.

n. Consider and evaluate Contractor's suggestions for modifications to drawings or specifications and transmit recommendations to Engineer. Notify Contractor of the decision.

o. Maintain for use at the job site orderly files for correspondence, reports of job conferences, Shop Drawings and Samples, Contract Documents including all Addenda, Work Directive Changes, Change Orders, Field Orders, additional Drawings issued subsequent to the execution of the Contract, clarifications and interpretations of the Contract Documents, progress reports, and other Project related documents.

p. Keep a daily log recording Contractor's work hours on the job site, weather conditions, equipment on site where applicable, data relative to questions about Work Directive Changes, Change Orders or changed conditions, list of job site visitors, daily activities, decisions, observations in general, and specific observations in more detail, as in the case of the observing test procedures. Send copies to Construction Manager.

q. Record names, addresses and telephone numbers of all Contractor, subcontractors and major suppliers of materials and equipment.

r. Prepare monthly reports of progress of the Work and of Contractor's compliance with the progress schedule and schedule of Shop Drawings and sample submittals. Submit reports with invoices and payrolls on a monthly basis.

s. Notify Owner in advance of scheduled major tests, inspections, or start of important phases of the Work. Coordinate with Owner’s operations staff.

t. Obtain backup material from Contractor and prepare proposed Work Directive Changes, Change Orders, and Field Orders and forward to Office Construction Manager for negotiation.

u. Notify Owner immediately upon the observation or notification of any accident.

v. Review and recommend approval of payment requests by:

    1. Reviewing and approving the Contractor's estimate of the amount of work completed to date.
    2. Reviewing the Contractor's estimate of stored materials delivered to the job site but not incorporated in the Work completed to date. Ensure invoice for materials is attached.
    3. Ensure receipt in next month's pay application of paid invoice for stored materials approved in previous month's application for payment.
    4. Ensure the Contractor and Subcontractor payrolls accompany each request. Check for compliance with Wage Rate Schedule, perform periodic Employee Site Interviews using attached *Record of Employee Interview* form, Exhibit D. Turn in to Owner bi-monthly.
    5. During the course of the Work, review certificates, maintenance and operation manuals and other data required to be assembled and furnished by the Contractor that are applicable to the items actually installed and are in accordance with the Contract Documents. Forward this material to Office Construction Manager prior to issuance of Certificate of Substantial Completion to the Contractor.

w. Recommend issuance of Certificate of Substantial Completion. Attach a list of observed items (punch list) requiring completion or correction.

x. Attend final inspection in the company of Construction Manager, Owner, and Contractor and prepare a final list of items to be completed or corrected.

y. Ensure that all items on final list have been completed or corrected and make recommendations to the Construction Manager to issue the Certificate of Final Completion for Owner's signature.

z. Limitations of Authority. Resident Project Representative:
   1. Shall not authorize any deviation from the Contract Documents or substitution of materials or equipment, unless authorized by Construction Manager.
   2. Shall not exceed limitations of Construction Manager's authority as set forth in the Agreement or the Contract Documents.
   3. Shall not undertake any of the responsibilities of Contractor, subcontractors or Contractor's superintendent.
   4. Shall not advise on, issue directions relative to or assume control over any aspect of the means, methods, techniques, sequences or procedures of construction unless such advice or directions are specifically required by the Contract Documents.
   5. Shall not advise on, issue directions regarding, or assume control over safety precautions and programs in connection with the Work.
   6. Shall not accept Shop Drawing or sample submittals from anyone other than Contractor.
   7. Shall not authorize Owner to accept the Project in whole or in part.
   8. Shall not participate in specialized field or laboratory tests or inspections conducted by others except as specifically authorized by Construction Manager.

C. SUBCONSULTANT SERVICES

Geotechnical testing Services: See attached for Scope of Work

ENGINEERS

Ms. Roxanna R. Medina, PE
Huitt-Zollars, Inc.
5822 Cromo Dr., Ste. 210
El Paso, TX 79912

Subject: Construction Materials Testing Services
Passmore Rd. Shared-use Path
City of Socorro, El Paso County, Texas

Dear Ms. Medina:

We are very pleased to submit this proposal to Huitt-Zollars, Inc. (Client) to provide construction materials testing (CMT) services in connection with the subject project.

Project Understanding

The project consists of the construction of a shared-use path along Passmore Road, with an approximate length of ±5,400 feet. Other appurtenances, such as the construction of curb ramps, driveway sections, headwall segments, and pedestrian rails, complement this projects. We understand that the project construction duration is about seven months.

General Scope of Services

Our proposed scope of services is provided in the table below:

Item	Description	Frequency
1.0	***Soils***	
1.1	Moisture-density relationship "Proctor Suite", includes SA and PI	One sample per type of material
1.2	Shared-use path - Field moisture-density by nuclear methods	One test per every 150 linear ft., at every compacted 6-inch lift
1.3	Miscellaneous sections - Field moisture-density by nuclear methods	Two tests at every compacted 6-inch lift
2.0	***Portland Cement Concrete (PCC)***	
2.1	Concrete compressive strength. Includes 1-Slump, 1-Air Content, 1-Concrete and ambient temperature.	1-set of four specimens per 50 cubic yards or fraction thereof of each concrete mixture placed each day

Item	Description	Frequency
3.0	***Hot-Mix Asphaltic Concrete (HMAC)***	
3.1	Bulk specific gravity, bitumen content, flow & stability, and gradiation test (Marshall test)	One set per every 250 tons
3.2	Field Density by Nuclear Methods	One test per every 125 linear ft.

Fee

Our **time-&-materials fee**, which was developed according to our interpretation of the project civil plans and specifications, is **$25,065.00**.

A complete detail of this fee estimate is presented in Attachment I. The field technician hourly rates presented therein correspond to services provided Monday through Friday, from 7:00 AM to 5:00 PM. Overtime Tech time services provided beyond these time frames will be billed at 1.5 times the regular time. Our estimated quantities may vary from the actual requirements or frequencies established or scheduled by the client representative in the field.

Acceptance

If this scope and fee are acceptable, please review the enclosed agreement (Exhibit A), sign in the space below if in agreement, and return to our office to provide authorization to proceed with our services. Exhibit A and this proposal constitute the complete agreement for performance of the above described services.

We appreciate your preference, and look forward to working with you in this important project. If you have any question or need further information, please contact us.

Respectfully submitted,
LOI ENGINEERS

Network Performance Platform

Conterra's Customer Support Organization provides 24x7x365 operational services, technical support, and proactive, IP-based monitoring of all networks with backup facilities in Louisiana. Conterra has developed its internal Rapid Response System to ensure any potential issues are addressed proactively to minimize the risk of service degradation or outage.

Performance Management Teams

Network Operations Center

Conterra provides proactive, IP-based monitoring to its customers across all networks and services on a 24x7x365 basis from its Network Operations Center located in Charlotte, NC with Backup NOC in Hessmer, LA.

Network Management Dashboard

Conterra partners with Local Backhaul Networks to provide *Ocular IP*, enabling customers to see real-time performance of the critical network elements with individual circuit-level detail.

Field Engineers

Conterra utilizes in-house field engineers to deliver superior services including MTTR of less than 4 hours in Rural, Suburban and Urban areas with Historical Network Availability ~ 99.997%

Best-in-class support organization offering 24x7x365 monitoring and response

DATE: November 3, 2022

TO: Mayor & Council

FROM: Alejandro Garcia, District 2 City Council Representative

SUBJECT: DISCUSSION AND ACTION TO DIRECT STAFF TO DEVELOP A PROGRAM TO INCLUDE BUDGET AND VOLUNTEERS TO CREATE A STREET MURAL ON RIO VISTA ROAD.

SUMMARY

Create a Street Mural on Rio Vista that will serve as a source of community pride while beautifying the streetscape.

BACKGROUND

In March 2022, Planning & Zoning Staff provided a presentation on the Socorro Sundays program. The presentation included the opportunity to create a Street Mural on Rio Vista Road.

STATEMENT OF THE ISSUE

This project would increase the capacity of Socorro Sundays and invite the community to participate in a community-wide event to paint a mural on Rio Vista. The event will create pride and community identity.
